In october I took a trip
to Italy and Greece.

Inside:

Rome has a new Temple of
The Church of Jesus Christ of
Latter Day Saints. Inside it

has a visitors center. It has an amazing Jesus mural with Bible stories. It also has the twelve apostles with Jesus in front of them. I also went in several museums. I saw many artifacts in the museums. There was lots of artwork in the museums. In one of the museums there was a room filled with artwork. There was artwork everywhere, on the walls and on

Outside:

We saw lots of ruins in Italy and Greece. In Greece we saw the Olympic site. That is where they held the Olympics from the 8th century BC to the 4th century AD. They met every

four years. We saw a lot of street cats. They were very colorful. It is very hot in Italy and Greece. We also saw lots of outside markets. They had lots of stuff. It was beautiful. My dad and I went up lots of stairs. There were many of beautiful beaches. The beaches have clear water with colorful fish. It also has soft sand.

Food:

We ate spuli. It is cheese
inside chicken. My mom and dad
ate octopus. I tried the octopus
but I did not like it. Naples
Italy is where pizza was born.
We ate gyros in Greece

and they are delicious. They are
like a taco with pita bread,
lamb or chicken and tzatziki
sauce. Clearly, you should visit
Italy and Greece.
