

Dear King Street Elementary School Community,

I am excited to reach out and introduce myself as the recently appointed Assistant Principal of King Street Elementary School.

Before my appointment as Assistant Principal, I was a classroom teacher for 19 years in the Elmsford Union Free School District, Elmsford, NY. During that time, I taught fourth and fifth grade in several different settings, including general education, STEM, and Integrated Co-Teaching (ICT). During my time in Elmsford, I am proud to have fostered strong relationships with students and families, many of which continue to this day.

In addition to my role as a classroom teacher, I was also entrusted with the title of Building Technology Coordinator. During my seven years as the Tech Coordinator, I provided professional development in the Google Suite for Educators, managed Chromebook distribution and collection, and provided support to students and staff. In addition, I created and managed a distance learning community information webpage to support families throughout virtual learning.

My experience as the Building Technology Coordinator helped propel me into administration as I found great satisfaction in helping teachers become better educators, and therefore provide a better learning environment for their students.

On a personal note, my wife and I are parents to Ava, 12, and Lia, 10. As I approach my role as Assistant Principal, I bring my professional and personal experiences as a teacher, and father, with me. I believe in leading with my knowledge, experience, and heart in doing what is best for children.

I am honored to have been selected as the new Assistant Principal for the King Street School. I look forward to meeting and working with you to provide the best possible learning experience for the children of the Port Chester community.

Please feel free to contact me at any time.

Anthony Carolini
Assistant Principal
King Street Elementary School
