Good Morning,

As many of you may have already seen on the news, some non-credible social media threats have been made to schools around the country this past weekend. You can read more about it at this attached link:

<https://www.wkyt.com/2021/10/25/vague-social-media-threat-sparks-concern-across-country/>

Although none of these non-credible threats have had any connection whatsoever to MPCS, I do want to ensure you that the district staff along with our safety consultants have continuously studied our safety protocols to ensure the district can continue to provide the safest possible learning environment.

Sincerely,

Stephen Beovich  
Superintendent of Schools  
Mount Pleasant Cottage School UFSD
