The Google Takeout App allows you to export and download a copy of your Pearl River UFSD Google Data Drive. In a few easy steps, you create an archive of your files that allows you to download everything so you can use them outside of the learn.pearlriver.org domain.

Procedure

1. Log into your **learn.pearlriver.org** G-Suite Account.
2. Go to **www.google.com/takeout**
3. Select the **data** that you want to archive.
4. Click **Next**
5. Choose **File type, frequency, and destination** [Google drive, once, .zip, 4GB (depending on where it's being stored)]
6. Click **Create Export**
7. Once the archive is in your Google Drive, **download** it to your personal computer to keep a copy of your data.
