

**SHARING GOOD NEWS  
MEDIA PERMISSION FORM**

Katonah-Lewisboro School District is always looking for ways to recognize the good work and achievements of our students and staff. One of the ways we recognize these successes is by sharing photos and videos on the district's website and social media, in our newsletters and on various news outlets.

**If you DO NOT wish to have your child participate in these and other forms of communication, please select option B below.**

**Please note:** Participation on an athletic team or in an afterschool performing arts program may lead to your child's photograph appearing in a local paper or on our website, with or without the child's name, as such events are open to the public.

- A. I understand that by selecting this option, the district may share photos and videos of my child with the community.
- B. I do not give permission for my student's name/photograph to be included in any media coverage including KLSD e-newsletters, websites, social media and press releases.
