PROFESSIONAL DEVELOPMENT
SESSIONS, TRAININGS & EVENTS

WELCOME TO LHRIC/IT MODEL SCHOOLS 2019-2020 CALENDAR

Back for the second year, we are proud to present the LHRIC Instructional Technology Professional Development Event Calendar. This year's calendar is fully inclusive of the high-quality professional development opportunities you've come to count on and appreciate. New this year is a selection of online courses, "PD Your Way," hosted in Schoology and facilitated by Model Schools Coaches.

Here are a few tips to help get you started:

- **Event Details** – Use MyLearningPlan for a detailed description, logistics, and registration information. All event participants are eligible for CTLE Credits.
- **Event Locations** – The majority of events are located at the LHRIC's Harrison Offices at 450 Mamaroneck Avenue in Harrison unless otherwise indicated. Exceptions are PD Your Way, and TLI and occasional PD events.
- **Cancellations/Changes** – In the event of a change or cancellation, an email will be sent out to those registered through MyLearningPlan with as much advance notice as possible. For weather related cancellations, check our website or local TV or radio.

Each year our professional development offerings are inspired by your participation and feedback. We are thankful to have you in our professional network and look forward to seeing you again this year.

The Model Schools Team

Model Schools

- Professional development is provided to teachers and administrators in support of instructional goals in the form of workshops, seminars, webinars, learning communities, and user groups.
- Also available are software user groups and product spotlights designed to ensure school district stakeholders are prepared with the latest details about the software, including new features, tips and tricks, and professional development for both participating and new users.
- New this year is PD Your Way: a collection of quality online workshops facilitated by a LHRIC coach. The courses run approximately four weeks and take 3-5 hours to complete. Upon registration, each participant will receive a "care package" to ensure maximum success and satisfaction! Membership in the Model Schools Core service is required. Access to events is open to all district staff without limit.

Technology Leadership Institute (TLI)

TLI is a series of seven conference opportunities; Tech Summit, the NYSCATE Annual Conference, TLI Winter Event, Active=Con, TELL Awards, NYSCATE/COSN CTO Clinic, and Tech Expo. The goal of this series is to bring national keynote speakers as well as innovative ideas and topics to local venues. This year we have aligned the series to a theme of Digital Wellness for the School Community. Membership in TLI Services is required and provides up to eight seats at each event. Look forward to a separate detailed catalog for this series.

NYSCATE

The LHRIC maintains a partnership with this state organization to take advantage of the depth and breadth of programming and connections they offer. NYSCATE's annual and regional events add even more opportunities for networking and growth for our members. There may be additional fees associated with workshops offered by NYSCATE to cover costs.

LHRIC Mission Statement:

"We provide K-12 leadership with our partner districts to achieve their educational technology goals."

Instructional Technology Mission Statement:

"We foster a community of professionals through the exchange of ideas and leveraging creative and innovative use of technology in a global collaborative environment for the advancement of all learners."

Staying Safe and Secure Online

How can we help students stay safe and productive as they navigate online environments? The Internet has made learning an “anytime, anywhere” experience. One result – school walls no longer ensure complete digital safety during learning. Still, the good digital habits that schools reinforce with students in the classroom can have benefits far beyond the school day.

Recommended Sessions:

(ONLINE) Digital Citizenship: Developing Digital Leaders Utilizing Common Sense Education1/3, 7/27
Digital Wellness: Bringing Mindfulness to Instructional Technology1/13, 2/12, 3/24, 4/14, 5/12, 6/9

Coaching For All

Even the most seasoned teachers and instructional technology specialists benefit from exposure to new ideas, tested strategies, and best practices from other districts in the region. Does your district have a “culture of coaching?”

Do you see coaching as an essential lever for instructional improvement? If you are a district based professional developer, what skills and tools do you need to remain effective in your role?

Recommended Sessions:

Helping our ELLs Thrive

English language learners (ELLs) are the fastest-growing student population group in the United States. Technology can help foster culturally responsive learning environments that help ELLs (and all students) thrive. Fortunately, there are a wide range of resources available to you to help your students learn English, increase their confidence, and learn new technologies and technology skills along the way.

Recommended Sessions:

A Thousand Words,

Using Digital Imagery in The Classroom.....11/19, 2/6, 4/2, 7/29

Maintaining Digital Wellness

“Digital health and wellness refers to physical and psycho-social well-being in a technological world. Given the ever-increasing frequency with which students use technologies, particularly in their personal lives, health and wellness are areas that need to be addressed in the interest of developing well-balanced future citizens.” (Source: Rocky View School Website)

“Digital health and wellness” is increasing in popularity as a search term, according to Google trends. When we are saturated by multiple devices, increasing access, and complex data influences, how do we help students of all ages maintain a healthy relationship with technology? How do we maintain our own?

Recommended Sessions:

Literate Students, Literate Citizens

Developing confident and self-reliant learners is one of the most important objectives of schools. Increasing access to devices and information has expanded our concept of what it means to be literate, both as a student

Recommended Sessions:

Accessibility Tools in O365	10/18, 4/29, 8/20
Achieve3000: User Group	1/17
Global Citizenship: Experience the World from Your Classroom	1/10, 8/25

and as a citizen. Technology, in conjunction with effective practices, is being successfully utilized to aid literacy development in all classrooms, from basic reading instruction to global and digital citizenship.

The Empowered Student

With consistent guidance and instruction, students of all ages can learn to choose technology as a learning tool in ways that allow them to embrace greater ownership of their academic progress. The right combination of cutting edge tools and instructional strategies can better empower students to express their voices in service to personalized learning.

Recommended Sessions:

Break Into Breakouts, the Digital Way 1/27, 7/13
Breakout EDU..... 10/29, 8/12

Designing Digital Portfolios & Digital Exchanges 4/1
Digital Creativity Session For Wixie Users..... 11/4, 7/21

Gamify - Fortify - Learn 11/7, 7/17
HyperDocs and Choice Boards 3/10, 8/21

Meaningful Connections

What does it look like to foster in-depth conversations and connections beyond hitting “like” or “follow”...? We can leverage technology to go beyond traditional formats for classroom exchanges, to discussions that promote

higher-order thinking, effective communication, and social-emotional learning. We can traverse traditional barriers by using virtual communication platforms that build empathy and create knowledge.

Recommended Sessions:

Blackboard User Group	4/21
Crowdsourcing Science: Explore NASA's Citizen Science Projects	2/7, 7/8
Design Thinking Across the Discipline Areas	11/18, 7/20
eChalk User Group	4/23

Global Citizenship: Experience the World from Your Classroom.....	1/10, 8/25
Microsoft Teams: Introduction	12/17, 7/30

Deep Learning

Research in neuroscience is shedding new light on how students learn and develop. Sometimes, technology can provide an initial spark of insight and inspiration that leads to deeper cognition and mastery of content.

Recommended Sessions:

Active Learning Center Tour & Open House	10/25, 11/12, 12/5, 8/20
Augmented Reality in the Everyday Classroom	4/28, 7/21
Brightbytes/Clarity User Groups: Speaking "Data" In Your Districts	10/8, 5/13
Maker Mindset: Physical Computing & NGSS	1/31

There are many conditions that schools can influence to support student learning, including the intentional selection and use of technology tools and platforms, and the physical environments in which learning occurs.

Model Schools CS & STEAM Museum of Play	7/16
Thinking Deeper Than Code: Creating an Agile Classroom	4/3

Let the Seeds of Learning Grow!

Just as seeds need the proper conditions in order to grow and develop, we all need time to reflect on, filter, and apply new content and skills acquired during the year. As your school year begins to wind down, keep us in mind as you plan your summer and wish to sharpen your skills in a relaxed and collegiate environment, free from the typical pressures of the school year.

Recommended Sessions:

A Thousand Words, Using Digital Imagery in The Classroom.....11/19, 2/6, 4/2, 7/29
Coaching for Coaches PLN: Learning First, Technology Second (2020 Cohort)..... 8/5-6/20

"PD Your Way" Spotlight: Your Time, Your Place, Your Pace

"PD Your Way" Online Workshops are fully facilitated by a LHRIC coach and are eligible for CTLE credits. The courses run approximately 4 weeks and take 3-5 hours to complete. Participants receive a "care package" upon registration to ensure maximum success and satisfaction, and have the option of applying for additional microcredentials to demonstrate evidence

of practice. New to online learning? We schedule face to face orientation sessions during the year to give you the confidence, skills and tools to make the most of your experience. Overcome time and geography constraints by joining your fellow educators in these online sessions.

Recommended Sessions:

(ONLINE) Coding for Cowards - A Scratch Experience for the Interested Novice 10/7, 7/6
(ONLINE) Digital Citizenship: Developing Digital Leaders Utilizing Common Sense Education 1/3, 7/27
(ONLINE) Flipping Your Lessons: For Beginners..... 12/2, 7/13

(ONLINE) HyperDocs: Not just Hype..... 3/2, 7/20
(ONLINE) Universal Design for Learning:
Using Educational Technology to Ensure Every Student Succeeds..... 4/6, 8/3
