

# This Month In: **FOURTH GRADE**

## Our Research Project

This month students will be embarking on a unique research experience! Students will be utilizing their reading, writing, and research skills to develop a comprehensive understanding of the American Revolution. Through the use of books, articles, and online research, students will examine the events that lead to this important event in American history.

Please continue to encourage your child to  
*minutes each night and celebrate any im*

## Science

In Science, students will continue learning about *Energy and Ecosystems*. They will learn about different populations and communities, discuss food chains, and determine how people affect their environment.

## Math

In January, students will be learning about how to determine the perimeter and area of a shape. We will then transition into fractions. We will study common denominators and explore how to generate equivalent fractions and compare and order fractions.

### Important Dates

- ELA Test simulation test: 1/8/19 and 1/9/19
- Math Test simulation test: 1/16/19 and 1/17/19
- No School for MLK Jr. Day 1/21/19
