2019-2020 School Year Health Examination Requirements

Dear Parents/Guardians,

As per New York State Education Law Article 19, a health examination certificate is mandated for students **entering the school district and/or pre-K, K, 1st, 3rd, 5th, 7th, 9th, and 11th grade**. A New York State licensed physician, physician assistant, or nurse practitioner is required to complete the form. You may provide a copy of your child's current health examination certificate to the school nurse at any time, however, we request receipt within 30 days of the start of the school year.

For students unable to obtain a form from their personal healthcare provider, a school-designated provider may be scheduled to conduct the health examination. In-school health examinations are utilized for students requiring an exam for a mandated grades, interscholastic athletics participation, employment certification, or upon request from the Special Education Department.

If your child has an appointment for an exam during this school year that is after the first 30 days of school, please notify the Health Office with the date. Communication between private and school health staff is important for safe and effective care at school. Your healthcare provider may not share health information with school health staff without your signed permission. Please talk to your provider about signing their consent form for the school at the time of your child's appointment for the examination.

We suggest you make copies of the completed forms for your own records before sending them to the school health office. Forms may also be faxed to the number below.

Sincerely,

Your School Nurse
