# What you can do at home

- At-home learning will look different than a typical school day. The amount of time your child should be expected to engage in learning activities will vary by age and grade level.
- Make sure your child has a quiet place to work (ideally a desk or table) and the school supplies they need. Try to remove distractions like the television or other technology not needed for learning.
- Students will receive a schedule and flow of the day for their remote learning days. They will have a schedule for whole group live instruction, small group or perhaps one on one. Their independent tasks will be posted as well as pre-recorded video resources.
- Maintain communication with your child's teachers.
- 

## DISTANCE LEARNING ONLINE VIRTUAL BACK TO SCHOOL

Write your main goals and split up SHORT activities over the week to accomplish those. The longer the meeting with students the less engagement (at least for elementary!).
