For the 2019-20 School Year

Parents:

All kids entering **7th**, **8th**, **9th**, **10th** and **12th grades** must have the **meningococcal vaccine**.

Without it, they can't start school.

About the Vaccine:

- It's not a new vaccine. It's been recommended for a decade.
- Most parents already choose to vaccinate their children.
- The meningococcal vaccine has been required for school entry since Sept. 1, 2016.

About Meningococcal Disease:

- It causes bacterial meningitis and other serious diseases.
- Teens and young adults are at greater risk.
- It comes on quickly and without warning.
- Its symptoms are similar to the flu.
- Every case of this disease can result in death or long-term disability.

Check with your doctor. Even kids who have had a shot before may need a booster to start school.
