

We have been celebrating wonderful tales and nursery rhymes that have been handed down from generation to generation. Encourage your child to share the stories he or she hears at school with you and then share some of your personal favorites. Make enjoying a good story together part of your daily routine.

Over the next few weeks we will continue to explore creative things kids can do. We will be turning recycled objects into treasures, conducting experiments to make new discoveries, and designing and building structures!

Literacy Family Connection

Enjoy some tongue twisters!

Listen for repeated beginning sounds of words (alliteration). See how fast you and your child can repeat the phrases.

Sally sells silly silk slippers.
Pedro paints pretty posies.
Bill builds big buildings.
Masha makes muffins-
mmmm!

Math Family Connection

Encourage your child to sort items into sets and then compare the sets using comparative language (more, fewer, greater, less).

*Look at the socks in the laundry basket.
Let's put them in two groups: white socks and socks that are not white.
Which group is greater?*
