

SKY ISLAND

Sky Island

One day in the city of Kamren, a boy called Jeff saw some thing odd in the sky. He didn't think much of it. When he went to bed that night, he had a dream. The only thing he could see was a portal. The Sky island he saw before. He tried to wake up but it was real!!!

He didn't know what to do. Later, he saw a tree and an axe on the island. The only thing he could do was to cut down the tree, so he did. The island was small and only had a little pool of water. It also had grass and moss but not much else. It was a little cold and sunny and it was a little hard to breath because the island had a high altitude. He could see thousands of clouds and the big bright blue sky. The only thing on the island was a big tall oak tree. The grass was dry no flowers grew the island was plain. His only food source was two fish in the small pond.

He made some wooden planks and a shovle from the wood he harvested. He started shoveling at the the dirt until he saw a thin layer of stones so he stopped. Then he planted a sappling from the last tree

He cut down. He made a dirt bed and slept until the next day. The tree grew over night.

He cut down the new tree and made a pickaxe. He started mining the stone, he carved out a wedge and lots of stone nails. He mined and carved until he saw the top of his city. He tried to put his hand through the hole, but a force field stopped him. Then he got an idea. He made a wooden shuttle and lots of wooden weights. His idea was to make the island fall near the city. He made the shuttle so he didn't get hurt when he hit the ground. He made the weights to make the island fall.

The island started to fall. He got in the shuttle and prepared for impact. When the shuttle hit the ground the shuttle broke, but he was ok. He found his way home and lived a normal life as he studied his experience.

When Jeff grew up he decided to open the sky island to the public. He found it again by looking in the sky. Jeff built an elevator to the sky island. Millions of people came to visit, his family did to. It cost thousands of dollars but he managed to do it. He did it so others

ould experince what he went through. That is
the story of Sky Island.
