for Human Resources  
& Community Services

January 7, 2021

Dear Pearl River School Community,

The Rockland County Department of Health has issued [new guidelines for quarantine requirements](#) for those exposed to COVID-19 based on guidance from the NYS Department of Health. In summary, individuals who have been exposed to COVID-19 can end quarantining after ten days if there are [no symptoms](#) during the quarantine period. Individuals must continue to monitor for symptoms through day 14.

Should your child be exposed COVID-19 and be required to quarantine, he or she may return to school after 10 days provided that he/she had no symptoms during those 10 days. Parents will continue to take their child's temperature and check for symptoms in order to fill out the attestation form each morning as they usually do. During days 11-14, the school nurse will check in with those students who are returning from quarantine to conduct a temperature and symptom check during the school day.

We have updated the [PRSD Re-Opening Plan](#) and the [Re-Opening Plan Q and A](#) on our website to reflect this information, as well as updating our [Return to School Protocol](#) flyer. All of this information can be easily accessed on our homepage by clicking on the [Planning for Re-Opening Page](#).

We look forward to the children's return to school and we thank you in advance for your cooperation in keeping our school community safe and healthy.

Sincerely,

Diana Musich
