PARCC Released Items

Portions of the 2018 summative math and English language arts (ELA) assessments have been made available for public release. The prior operational assessment materials are being released on a rolling basis through early 2019.

Math items for Grades 3 -8 are currently available. ELA items for Grades 3 -8 will be released after the 2019 ELA assessments have been developed. High school items for both math and ELA will be released in February 2019.

In order to provide this resource to educators and students, the newly released item sets, answer keys, and sample student response documents are available on <https://parcc-assessment.org/released-items> by selecting 2018 in the YEARS section.
