Health Care Provider Notification Regarding the Completion of the Required School Health Examination Form Effective 1/31/2021

Dear Healthcare Provider,

Education Law requires all New York State (NYS) public school students to have a health exam as a new entrant, in Pre-K or Kindergarten, and grades 1, 3, 5, 7, 9, and 11.

Effective 2/1/21, all health examinations performed for school must be documented on the NYS Required Health Examination Form or an electronic health record equivalent form - pursuant to Education Law. The form will be available on the NYSDOH Health Commerce System (HCS) in mid-February.

ONLY the approved form or an electronic health record equivalent form will be accepted by schools for health examinations conducted on or after 1/31/2021.

Students who present a physical exam that is not acceptable will be required to have the parent/guardian contact your office to complete the correct form. We ask that you comply with Education Law and document a health exam on the correct form or electronic health record equivalent.

Please note the components on the health exam form are required in NYS Law.

The <u>Instructions for Completion of New York State School Health Examination Form</u> (included in this packet) provides directions to healthcare providers on the required components and the required presentation order of those components for an electronic health record form to be an equivalent form.

Thank you for assisting your patients and families by providing the documentation required by NYS Education Law.

Sincerely,

Dr. Amy Goodman
Superintendent of Schools
