# CONGRATULATIONS CLASS OF 2020

As I think back to the hundreds of high school graduates I have celebrated this moment with, the simple words, "Congratulations" frankly does not seem anywhere near enough. You have endured the most difficult Senior year anyone could ever imagine. You have lost moments that will never be replaced and suffered changes that no one could have even considered. However, the reality is that this is the world you are thrust into. I believe you are the class that will be best prepared to handle tough challenges and difficult situations without ever even pausing. You have already proven you are leaders who can make sacrifices for others and remain focused on the task you set out to accomplish.

Class of 2020, you are indeed very special and perhaps more than the graduates who preceded you, and those who will follow you; much is going to be expected of you. As you move onward into adulthood you will appreciate more than any other graduating class the absolute necessity of being prepared when hints of something daunting is present. You will recognize that truth is so much more important and essential than fiction. And most of all I know you will appreciate and understand how precious life really is, and how we must embrace and enjoy it when we have it. I am proud of each one of you and would offer the following simple advice:  
When you are given an opportunity to help someone, do it  
Make good choices that you can live with  
And always remember where home is!
