Marco F. Pochintesta, Ed.D.
Superintendent of Schools

December 4, 2020

Dear Pearl River School Community,

As I indicated earlier this week, I am sharing the current positivity rates for each of our schools based upon testing results from 20% of our in-person population of students, teachers and staff. We are waiting for the results of a handful of tests at each building except for Lincoln Avenue Elementary School where the testing is complete. This handful of test results in each building will change the positivity rate slightly depending upon whether the results are positive or negative.

School	# Tested	# Positive	Positivity Rate in %	Cluster Zone Rate
LA	61	4	6.55%	5%
FA	67	7	10.40%	5%
EP	72	5	6.90%	5%
MS	109	13	11.90%	5%
HS	119	13	10.90%	5%

We will issue a final update next week before our reporting deadline to the State.

Sincerely,

Dr. Marco F. Pochintesta
