

3520.11 ELECTRONIC INFORMATION SECURITY

The objective of electronic information security is to ensure business continuity and minimize business damage by preventing, controlling and minimizing the impact of security breaches. The purpose of this policy is to protect the Salisbury School District's electronic information resources from threats, whether internal or external, deliberate or accidental. Electronic information resources are defined as all District computer equipment, including any desktop or laptop computers and all hardware owned or leased by the school system; the District's computer network, and any computer software licensed to the District; and stored data. This policy shall apply to all users, whether or not affiliated with the District, of District electronic information resources as well as to all uses of those resources, wherever located.

The Salisbury School District will maintain access management processes to ensure that appropriate access will be afforded to electronic information resources.

Availability of the electronic information infrastructure is crucial to the continued effectiveness of the Salisbury School District. The District will develop and implement procedures in accordance with prevailing industry standards and applicable federal and state law to manage environmental, developmental and disaster recovery requirements.

The District will educate all users regarding acceptable use and proper security procedures for electronic information resources.

The District will manage electronic information resources in accordance with applicable federal and state laws and regulations, including laws regarding the confidentiality of student and personnel information and access to public records.
