

## **COVID Vaccinations**

Good Afternoon New Dawn Students and Families,

We are looking forward to everyone returning to in-person school for the Fall semester and as it has been throughout this pandemic our goal is the health and safety of all Staff, Students, and Families of New Dawn. We will be following masking, screening, and distancing protocols in the school building but our best and safest opportunity to protect everyone is a COVID-19 Vaccine. All New Dawn students are of age and eligible to receive a safe, free vaccine which will drastically decrease the chances of contracting or experiencing severe symptoms of COVID-19. We strongly encourage that any New Dawn Student who has not already taken advantage of this opportunity seeks out their chance to do so as soon as possible.

Attached you will find a letter from the NYC Department of Health and Mental Hygiene with further information about the vaccines and how to find a site to receive one. We at New Dawn are always available for any questions or concerns and can help guide you through the process if you need. We hope that you will consider this as we look to reopen in-person learning, especially with the concerns of emerging COVID variants such as the Delta Variant. We hope you and your families enjoy the rest of the Summer and we are excited to see you in September for the Fall 2021 semester.

Thank you,  
Mr. Flory
