SLT Minutes<br>Wednesday, Mach 6th 2019-7:30 a.m.<br>School Library

Members: Eileen Fallon, Laura Scott, Heidi Bookman, Heather Volik, Johanna Schiller, Erica Drew, Giuliana Reitzfeld, and Gerard Langton.

Guests: Jane Kotapish, Robert Grant, and Gary Wong.

Called to order at 7:45

Minutes were reviewed and approved.
4/13 Annual Citywide Comprehensive Education Plan Conference. Erica will attend.
Parent surveys: one of the goals in our CEP is getting feedback from parents, so we need to amp up the "green survey" responses. Discussed having laptop stations set up at Parent Teacher Conferences so that parents can fill out their "green surveys" right there onsite as they exit. Would also like to have a Konstella station so that parents can sign up.

Title 1: discussed bringing back Michelle Ciulla Lipkin for a repeat performance of her Parenting in the Digital Age discussion as a morning meeting, to expose more parents. This month we have The Leadership Program coming to discuss the neuroscience of stress. Currently set as a 6 pm meeting, but SLT suggests moving it to 8:30am.

Budget: Does our budget align with our CEP?
-"Rigorous Instruction" - Leaving the math coach verbiage in the CEP because Ms. Abodeely does intervention.
-"Supportive Environment" —00RS; Tenacious Cards,; Addy and Uno puppet presentation was wildly successful. $5^{\text {th }}$ graders are asking for peer mediation; discussion of bringing in training or having Gio Oramas do a class-by-class presentation. Bring back mindfulness?
-"Collaborative Teachers" -FaceLab, chess, science fair and STEAM Fair already in place; discussed more STEM-based activity. Discussion of training teachers in Code.org and sending a delegation of teachers (Heidi, Erika) to visit the Brooklyn school featured on "60 Minutes" where Code.org is revolutionizing getting girls into coding. 4 PCs and 4 Macs and printers were recently purchased with reallocated funds.
-"Communicating with Families" —Newsletters going out by grade. Discussed having printouts available at Parent Teacher Conferences.
-FAQ will be discussed at next meeting.

Rube Goldberg revamp: discussion of creating a building lab on a Saturday (or two) prior to $4^{\text {th }} / 5^{\text {th }}$ grade fair for kids without parent support. Pull in science teachers, parent volunteers, math teachers, donated supplies, etc. and assist kids in their creations.

March 27 next meeting
