

Unified Classroom™ Schoology Learning

Rollover Support Package

Working Together for a Smooth Rollover

Over the years many organizations have requested assistance with transitioning to the next school year. Since this is a workflow that is used once a year, but is critical to instructor success, many people have requested supporting resources and consulting time with the experts.

Based on these requests, Schoology offers a Rollover Support Package to help assist you in your transition. You will still have the option to utilize our support team and self-paced resources, but you may need one-on-one assistance preparing your data and teachers for the new year.

The Rollover Support Package includes:

Data Population*

Schedule a session with an Implementation Engineer to:

- Update your users, courses and enrollments to the 2021-2022 School Year
- Create new terms for the 2021-2022 School Year
- Cleanup user accounts that are no longer active in your organization
- Reassociate parent accounts to children that have graduated or moved schools (if applicable)

Instructor Best Practices

Join a private Schoology Group to:

- Gain access to easy downloadable resources to distribute to instructors
- Ask a Schoology expert rollover specific best practices
- Collaborate with other administrators around best practices for preparing for a new school year

*This process may take up to 2 weeks and requires scheduling with the appropriate Schoology resource for support
