

COPPA Consent Listing

Below is a list of web based applications the district utilizes for the educational growth of our students. These applications collect basic information from users including, but not limited to the users first and last names, their email address, their grade level, and date of birth. In compliance with the federal COPPA law, the operating body of each application must provide clear terms of service indicating they will not collect personally identifiable information from children under the age of 13 without first having received parental consent. Under federal law, school districts may act *In loco parentis*, meaning schools can consent on behalf of parents to the collection of student personal information — but only if such information is used for a school-authorized educational purpose and for no other commercial purpose.
