Key Strategies and Resources

STRATEGY	METHODS	GAUGING SUCCESS	RESOURCES
What strategies will we pursue as part of this Priority?	What does this strategy entail?	What specifically will we look for during the year to know that this strategy is having the desired impact (this could include qualitative or quantitative data)?	What resources (Schedule, Space, Money, Processes, Individuals) are necessary to support these strategies?
Gather and Demonstrate Support for District Goals	School and district leaders will collect and assess the status of existing school and district level documents so that collaborative processes to define the vision and mission can be implemented, to include: gathering input from various stakeholders, building consensus, and developing buy-in.	● Leaders will be able to cite examples of how district goals have been supported by stakeholders.	Leader time and actions
Inspire Ownership of and Attainment of District Goals	School leaders will play an important role in inspiring members of the school community to be ambitious in setting the vision and mission and then routinely reminding them to keep expectations high.	● Teachers will be able to indicate that they feel ownership over district goals and are inspired to assist in the attainment of them.	Leader time and actions
Implement District Goals Effectively	School leaders will explore research and best practices aligned with Professional Standards for Education Leaders (PSEL) to develop understandings of how schools bring to life and use their vision and mission to guide strategic decisions related to such matters as curricular	● School leaders will be able to cite examples of how they have supported the implementation of district goals in their buildings.	Leader time and actions

	programs, school wide pedagogical philosophies, and resource allocation, and how to use the vision and mission to guide daily decisions in meaningful ways, such as how to address a particular student's concern, or structure agendas for student assemblies and staff meetings.		
Articulate District Goals and How They Are Reflected in District Practices	District and school leaders will collect and collate the symbols, habits, and rituals that exist at the elementary, middle, and high schools according to purpose, scope, frequency, and impact, and reviewed for alignment with the mission and vision as it is now defined at the district and school level, and in preparation for leading work on mission and vision development.	● Building leaders will be able to articulate how district goals are reflected in their buildings.	Leader time and actions

Measuring Success

What will success look like for this Priority, and how will the District know if success has been achieved?

Provide quantitative data and/or qualitative descriptions of where the district strives to be at the end of the 2022-23 school year.
Anchored in the District's Strategic Plan, actions will stem from leaders and classroom practitioners to further each element of the District's Strategic Plan.

PRIORITY 2

Our Priority

What will we prioritize to extend success in 2022-23?	Distribute leadership and share accountability between and among stakeholders at each school building and at the district level to create a culture of high trust (TRUST).

Why is this a priority?
Things to potentially take into consideration when crafting this response:
 	
● *How does this commitment fit into the District's vision, values and aspirations?*
● *Why did this emerge as something to prioritize?*
● *What makes this the right commitment to pursue?*
● *How does this fit into other commitments and the district's long-term plans?*
● *For Districts with identified schools:*
    o *In what ways is this influenced by the "How Learning Happens" document? The Equity Self-Reflection? Student Interviews?*
    o *In what ways does this support the SCEP commitments of your identified school(s)?*
	This is a priority because it expounds upon the district's values and aspirations beyond our vision of "Success For Every Student."
	
	● T = Teach: Teach everyone in the school district about the shared vision, mission, and goals. Discuss shared ownership and how we will collaborate to make improvements. Make the work as transparent as possible.
	
	● R = Reward: Make sure reward systems align with District values and goals. Celebrate small successes in the priority areas identified in this plan. Reward and Acknowledge the contributions of all who work towards these common goals.
	
	● U = Unconditional Support: Encourage innovation. Create an environment where mistakes are opportunities to learn, not to punish. Give employees permission to "think outside the box."
	
	● S = Share Information: Communicate clearly and frequently.
	
	● T = Trustworthy: Make commitments and keep them.

PRIORITY 3

Our Priority

What will we prioritize to extend success in 2022-23?	Create a culture of inclusivity to provide all students with fair, just, and personalized learning and growth opportunities.

Why is this a priority?
Things to potentially take into consideration when crafting this response:
● *How does this commitment fit into the District's vision, values and aspirations?*
● *Why did this emerge as something to prioritize?*
● *What makes this the right commitment to pursue?*
● *How does this fit into other commitments and the district's long-term plans?*
● *For Districts with identified schools:*
   ○ *In what ways is this influenced by the "How Learning Happens" document? The Equity Self-Reflection? Student Interviews?*
   ○ *In what ways does this support the SCEP commitments of your identified school(s)?*
	This is a priority because it aligns with a commitment made by our identified school (Port Chester Middle School).
	
	We commit to continue to develop a positive social-emotional school culture that is inclusive of all, safe, and nurturing.
	
	With the return of students to the first full, uninterrupted school year since the pandemic began, we observed a variety of social-emotional concerns for both students and staff, alike. In order to promote a culture of inclusivity and fair, just, and personalized learning, social-emotional needs must be proactively addressed.
	
	Students' social-emotional health is directly connected to their ability to learn and their success both socially and academically. Some students need to relearn how to attend school and interact with others in person. Restorative practices are being explored to reframe punitive reactive discipline to collaborative problem-solving to meet our students' needs.
	
	We are committed to continuing to emphasize a social-emotional focus.
