**Unit 4: Mastering Performance Critique and Assessment for Ultimate Progress**

**Overview:**

Chorus is a course in which students learn musicianship, theory, and vocal technique through a variety of choral literature chosen from different genres and time periods. Students learn the basics of proper vocal production through breathing, posture, phonation, and diction. Students spend time developing their command of basic music theory and sight singing as well as the importance of melody, harmony and how a Chorus is built upon the blending of each, unique voice. Musical performance is a unique and continual process. All levels of talent and experience are welcomed. Through concentrated practice, students will progress naturally to the next level of mastery. This progressive method rewards the student for personal effort and for contribution to the accomplishments of the Chorus. In this unit, students will analyze existing performance rubrics and create their own. They will engage fully in the critique of performances that are individual, small ensemble and large ensemble in nature.

**Time Frame:** One Marking Period

**Enduring Understandings:**

- The sound of the Chorus is built upon the blend of each individual voice.

**Essential Questions:**

- What is the role of music in my life?
- How does my individual participation benefit the whole ensemble?
- What are the characteristics of an ensemble that gives an effective performance?

## Accommodations and Modifications:

**Students with special needs:** Support staff will be available to aid students related to IEP specifications. 504 accommodations will also be attended to by all instructional leaders. Physical expectations and modifications, alternative assessments, and scaffolding strategies will be used to support this learning. The use of Universal Design for Learning (UDL) will be considered for all students as teaching strategies are considered.

**ELL/ESL students:** Students will be supported according to the recommendations for “can do’s” as outlined by WIDA – [https://www.wida.us/standards/CAN\\_DOs/](https://www.wida.us/standards/CAN_DOs/) Music has limited language barriers due to the nature of the curriculum.

### **Students at risk of school failure:**

Formative and summative data will be used to monitor student success. At first signs of failure, student work will be reviewed to determine support. This may include parent consultation, basic skills review and differentiation strategies. More time will be made available with a certified instructor to aid students in reaching the standards.

**Gifted and Talented Students:** Students excelling in mastery of standards will be challenged with complex, high level challenges related to the complexity in planning and carrying out investigations and analyzing and interpreting data.
