Our Principal's Message

Dear Parents,

Happy New Year to all of our Robert Treat Academy families.

This is a year of hope for me. My hopes are for our students and, you, the parents. I hope that all of our students will stay healthy, do the best they can in school and stay out of harm's way.

My hope for our parents is that each of you will stay healthy, stay out of harm's way and become more involved in your child's education. Research proves that students who have parental support do much better in school. There are many ways that you can support your child while they are in school. You can check to see that all homework is done and done correctly, sign homework each night and be involved in what takes place in school. I am especially referring to Parent Council Meetings.

My congratulations to all of our students that attained the Principal's List, Honor Roll and December Student of the Month. I know that each of you worked very hard to accomplish these achievements.

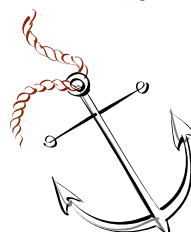

On questionable school days where we have inclement weather, please refer to the information on the last page of this publication.

Don't forget that Parent Conferences take place in February.

Sincerely,

Principal

In Commemoration of
the Birthday of
Dr. Martin Luther King, Jr.**

Central Connection

Submitted by Mr. Trillo, Vice Principal

I hope everyone enjoyed a safe and happy holiday. I am glad Mother Nature cooperated and made sure the blizzard of 2010 came at a time when all of our families could be at home. The custodians at both campuses worked extremely hard over the winter recess, not just shoveling away the snow but also preparing the classrooms so that they would be in tip top shape for the children when they returned. I can't explain how critical these staff members are to the success of our entire program. When you see them make sure to thank them for a job well done.

January brings with it a new adventure for the 2nd graders at RTA Central. As you know they will be starting their swimming lessons on Friday, January 7th at NJIT. We look forward to a great learning experience for all those involved. I'm sure we will have some pictures to share in the coming months. I look forward to seeing you all at the next Parent Council Meeting!!

Hope To See You at the Next Meeting!

Seems as though there is not much to be said concerning the attendance at the December Parent Council Meeting.

Our students and teachers worked very hard to prepare for the Holiday Concert and it is very disheartening when our parents don't share our concern.

Please make the Parent Council Meetings a priority in the future. Our students and staff need your support.

News From The Central Music Room

Submitted by Ms. D. Walker, Music Teacher

I would like to congratulate Robert Treat Academy's star Students of the Month. This proves they are really working hard in class and trying to be the best they can be.

This month all classes have been learning so much about Music. Kindergarten has been working on steady beat, first grade has been working on dynamics and second grade has been learning about pitch. It is so exciting to see the student's progress and we are ready to keep moving forward.

This month second grade had an enormous holiday celebration. We played holiday music, ate pizza, drank hot chocolate with marshmallows and whipped cream, ate candy canes, cookies, cupcakes and brownies. We had balloon snowmen and even got our faces painted. What a way to end the 2010 year!

The students and I are very excited to continue our musical experience into 2011. There is just one thing that you should never forget and that is: "Without music, life is a journey through a desert!!!"

KID FIT is the perfect FIT

Submitted by Mr. Battle, Central Physical Education Teacher

Kid Fit gives the students an extra opportunity to get in their exercise and fitness while increasing their knowledge on how to live and maintain a fit and healthy lifestyle, now and for the rest of their lives.

The program is held at both RTA North and Central. The students go over and discuss their weekly goals, fitness and nutrition goals. If they have accomplished goals from the past weeks they discuss them or mention how they may improve on their new kid fit lifestyle for the weeks to come. The sessions are done with smaller groups (8-15 students) giving the students an opportunity to build their character education and team cooperation skills. The program has been a success so far and there seems to be continuous progress coming from the students working towards living a healthy lifestyle.

TAMIA BUTLER, NYOBI BODDIE, AMARIS HERNADEZ, DESIREE JOHNSON, NYLA GILLIAM, AND GABRIELLE JEMENEZ

SNOWMAN'S PLAYGROUND

OSCAR'S GARBAGE CAN

Seeing Double

Submitted by the Central Frist Grade Team

In Math class, the first grade students have been seeing double! The children learned that the word double means there is two of something. So, they figured out that when we add any number to itself, it is called a double.

To help them explore the sums when

adding doubles, the first graders used paint.

First, the students picked a number and made that many dots on the paper. Then the students folded the paper in half and pressed the paper down. When they opened the paper, they found to their surprise... the dots doubled! The students then wrote the number sentence they had created on their paper. Because of how much fun the first grade had learning about doubles, maybe seeing double wasn't so bad after all!

Kindergarten Central Goes North!

Submitted by the Central Kindergarten Team

When Kindergarten Central heard they were going north some had thoughts of the North Pole. They were just as happy when they were told it was Robert Treat Academy North. The students enjoyed themselves tremendously at the holiday concert. While they enjoyed the entire show some of the highlights

included the choir singing Santa Claus is Coming to Town, Twelve Days of Christmas, and the band and orchestra's rendition of Jingle Bells, the jazz music, and the drum solos.

Kindergarten Central wishes everyone a wonderful holiday and the best of everything to come in 2011!

A Pizza Party Unit?

Submitted by the Third Grade Team

The third grade students will complete a "Pizza Party Unit", in which they will collect, organize, interpret and analyze data by conducting surveys and creating graphs; all of which will be done in their math and computer classes.

We will initiate the project by brainstorming different pizza toppings and we will use our ideas to create a web of different toppings. The next step involves making predictions for what the class' favorite toppings are, and then the students will conduct a survey to find the actual results. Once the survey is completed, the students will make a tally chart for the different pizza toppings. The students will be able to incorporate a little science into the project by using the results of the tally chart to organize each top-

ping into its correct place in the food pyramid. After the science piece, the students will create a pictograph using construction paper and then we're off to the computer lab to create bar graphs! Lastly, we are taking a look at a pizza recipe to see what ingredients we need

to make pizza dough and we will figure out how to double the recipe. Once all this pizza research is done, I think we deserve to have our very own special pizza party!

North Learns About Community Workers

Submitted by the North First Grade Team

During December, first grade started a reading unit entitled Our Neighborhood at Work. We have been reading and learning about communities and the people who work in the neighborhood. We investigated the jobs of different community workers that we encounter every day and what their jobs entail. Some of the jobs we have read about include firefighters, veterinarians, police officers, carpenters, dentists, and teachers. The students also listened to the book, "Career Day" by Anne Rockwell. The characters in the story have fun learning about the different work people do in the community. After listening to the story, the children were very eager to share their ideas on what they want to be someday. The future workforce of America looks great!

FROM LEFT TO RIGHT: DAVID GUERRERO, MILANIS RIVAS, DEVIN FUSSELL, AND DESTINY MAURY

News From The North Music Room

Submitted by Mrs. Heinlein-Wood, Music Teacher

We had a very entertaining Winter Holiday Program due to many entertaining performers! From the chorus, we had a chance to hear soloist Ebony Hubbard singing "O Holy Night" and Maurice Ware and Cesar Gomez with their commentaries on "Santa Claus is Comin' to Town". Then with the band we heard McAfee Sheehan, Jenilee Jaquez, Aubree Phillips, Diego Cuevas, Raphael Castillo, and Cesar Gomez play improvised solos as part of the "Hard Rock Blues". Enjoy these pictures!

Skyscrapers Are Coming to RTA!

Submitted by Ms. Kelly-Kemple, Science Teacher

The students in grade 8 have been studying Skyscrapers in anticipation of their visit to the Skyscraper exhibit at the Liberty Science Center. The students learned the four basic parts of a skyscraper, researched and wrote a report on their favorite skyscraper and completed a class project on skyscrapers. Each group of four students was given the challenge to build the tallest structure made out of simple materials that could hold a minimum of 10 gummy bears. The students were given 25 3x5 cards, 20 drinking straws, 10 gummy bears and a roll of clear tape to create their tall building. The students had a terrific time using their knowledge to design and build their creations. Students that remembered the importance of a good foundation and cooperation had the most successful Skyscrapers.

"It's a Wonderful Life"

Submitted by the Second Grade Team

The students in room 14 were invited to St. Benedict's Preparatory School, on December 21st, to see the movie, "It's a Wonderful Life." Students and teachers walked to the school, just down the block from the central campus, to join the "big kids" in a holiday celebration about life. After the movie ended, Father Ed invited us to stay for a special visitor. Students danced and sang Christmas carols while waiting for the visitor. At last, students

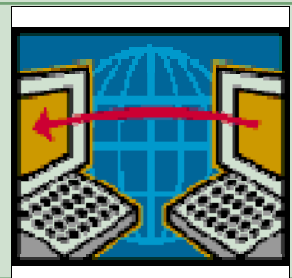

were surprised to see Santa Claus wal in with his elves and reindeer. While leaving St. Benedict's, Santa was kind enough to stop and talk with everyone and even stayed for a group photo. What a wonderful opportunity it was for second graders to come together with another community and share in the holiday spirit.

Happy Holidays and a Happy and Healthy 2011!!

STUDENTS FROM ROOM 14 AT ST. BENEDICTS

Do you supervise your children when they are on the internet?

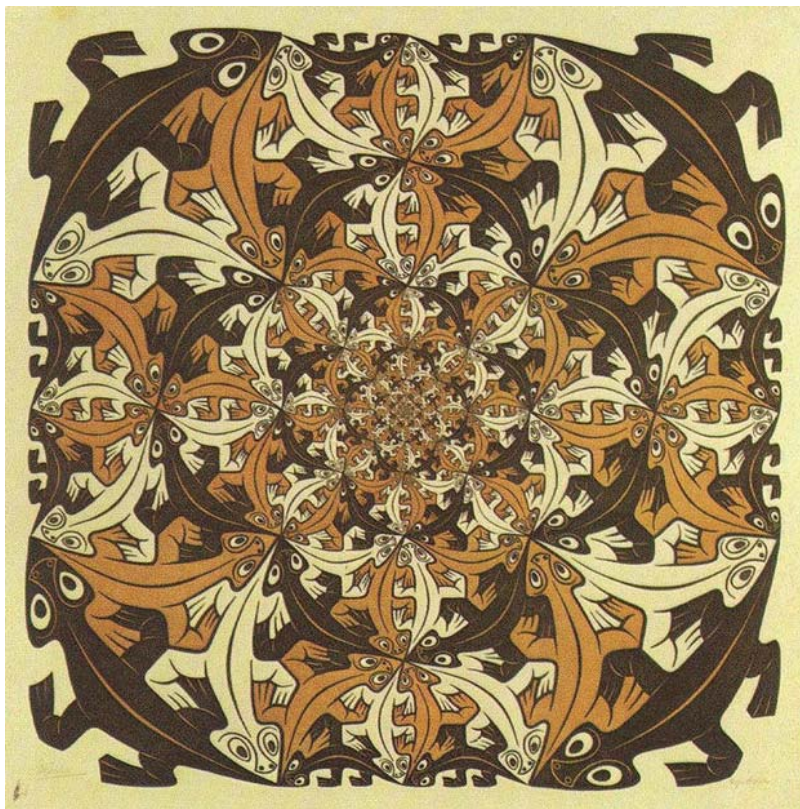

Tessellation??

Submitted by the Seventh Grade Team

The month of December flew by in the 7th grade! The kids have been working hard in math class. Both 7th grade classes spent time learning about tessellations. A tessellation is created when a shape is repeated over and over again covering a plane without any gaps or overlaps. Tessellations are also commonly known as "tiling." Tessellations can be found in math, art, science, and in nature! The students will be completing a tessellation project to showcase their work and knowledge about tessellations. In these projects they will learn about where tessellations can be found and creating their very own! Below is a tessellation from M.C. Escher, a famous artist. Look for the repeating patterns of reptiles within a repeating 4-leaf clover shape!

Congratulations to all the Honor Roll and President's List award winners; we hope to see even more winners for Cycle 3!

Hope you had a relaxing and safe Holiday Season and Happy New Year from the 7th grade team!

M.C. Escher's, an artist who is famous for his use of tessellations in his artwork, *Smaller and Smaller*.

Picture from "Totally Tessellated" @

Bullying

A **bully** is someone who is mean and attacks other people with words or actions. They use teasing, threats, or strength to pick on, frighten, or hurt someone or take what they want.

Bullying is a form of aggressive and harassing behavior. This antisocial behavior occurs across geographic, racial, and socioeconomic segments of society. Bullying prevents its targets from enjoying a safe, stress-free living, learning, and working environment. Children who bully are at risk for a

host of long term, negative developmental outcomes including juvenile and adult criminal behavior. Early intervention in the home, school, and the community are the best hope we have of diverting people from this destructive pattern.

8th Grader Wins High School Essay Contest

Submitted by Ms. Moje
Director of High School Placement

Congratulations, William Rebolledo!

Queen of Peace High School, located in North Arlington, NJ recently invited 8th graders from Hudson, Essex, and Bergen counties to participate in an essay contest on ways to end prejudice. William Rebolledo, a member of this year's 8th grade class, won third place in this contest. He was awarded a \$50.00 gift certificate to Barnes and Noble. We at Robert Treat Academy are extremely proud of William. The text of his winning essay is below! Read and see just how wonderfully he writes.

Did you know, all Irish people drink? All Asian people are computer geniuses? All African Americans can run very fast? Of course, these are facts, you know. Oh wait, they're not facts, they are examples of the kind of prejudices that exist in our world today. None of these stereotypes are true, and yet we learn them as early as elementary school. "To remake the world, we must start with ourselves." Each of us has to learn to make a difference if we want prejudice to end.

Bullying can be defined as someone of a high social rank physically, verbally, or emotionally picking on someone of a lower social rank. This happens in schools all the time; it starts in kindergarten and continues into college. School bullying is a serious problem, so serious that Congress is trying to pass federal legislation to end bullying. Bullies make school dangerous for everyone. They make it hard for students to learn and for students to be themselves. It makes teacher's jobs harder because they have to try to control the bullying. Teachers who have to break up physical bullying may get injured as a result. Bullying also sets a bad example for all students in the school, it teaches small children how to push each other around. Bullies take away from the learning

process and if we don't learn, how can we be successful in life?

Prejudice is an adult form of bullying. When adults pick on each other, we don't call it bullying; we call it prejudice and it creates problems all over the world. Prejudice can be defined as unfairly judging someone based on race, culture, religion, or sex. Prejudice is the cause of all the world's hatred, and it all starts with bullying. Children who bully each other wind up becoming adults who are prejudiced. It's a cycle that needs to end.

**WILLIAM
REBOLLEDO**

Right now, as a student, what I need to do is treat everyone with respect, report bullying, and stand up for weaker people. When I am an adult, I can do my best to learn from other's mistakes and respect and accept all people. I will also work to make other appreciate diversity. That is how I can make a difference in the world. ~William Rebolledo

***SCHOOL BEGINS PROMPTLY AT 8:30 AM EACH MORNING.
ANYONE ARRIVING AFTER THAT TIME IS LATE!***

Dear Santa...

Submitted by the North Kindergarten Team

The Kindergarten students at Robert Treat Academy have been extra good this year. We thought Santa should know how good they've been. We wrote him letters and decided to send them to the North Pole. Here's what students had to say to Saint Nick:

Dear Santa,
I have been really good this year. I want a Transformer toy and I wish for a Hot Wheels. Don't forget the train! Choo, Choo! I love you!
Love,
Jayden Cruz

Dear Santa,
I have been really good this year. I want a pointer so I can play teacher. I want a toy dog and a dolly.
Love,
Zaida Lagarez

New to Our Staff

Mrs. Sabina Sessa started working at Robert Treat Academy immediately before the Holiday Recess. She is teaching third grade with Mrs. Zarfino. Mrs. Sessa is a graduate of Caldwell College and earned her teaching certification in the area of Elementary Education K-5 and a second certification in the area of Special Education. She is continuing to further her education by attending graduate school to pursue her master's degree.

Mrs. Sessa comes to RTA with four years of teaching experience in an elementary setting. She prides herself on being compassionate, caring, knowledgeable and creative.

She is delighted to be given the opportunity to teach at such a wonderful, prestigious and well recognized school. She is looking forward to a successful and memorable year!

Dear Santa,
I have been really good this year. I want a Barbie and a purple scooter. And I don't mind if you leave a Wii, too.

Love,
Angela Blair

Dear Santa,
I have been really good this year. This year I want a trip to Disney World. I can't wait Mickey Mouse!
Love,
Adrianna Perez
P.S. Enjoy the milk and cookies!

We're sure Santa won't hesitate to deliver these special presents, especially since the letters were so impressive! Kindergarten would like to wish all of RTA a very merry holiday season. We hope Santa makes all your Christmas wishes come true!

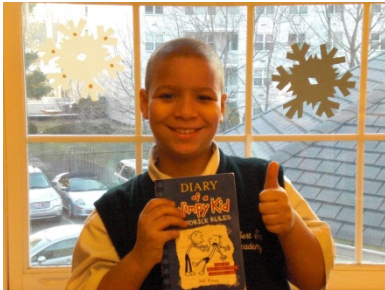

Our Rating Scale is out of 5
Stars:

"Diary of a 4th Grader"

Kid: Rodrick Rules The Diary of a Wimpy

Submitted by the Fourth Grade Team

By: Rubien Torres

Imagine living with a brother that nearly ruins your life. That is how life is for a boy named Greg Heffley, all because of his brother Rodrick. You can read about these two brothers in the book, Diary of a Wimpy Kid: Rodrick Rules, by: Jeff Kinney.

Rodrick pretty much takes over everything in Greg's life. He uses the phone every day, his room is a mess, and he is never nice to poor Gregory. Both brothers are actually mean to each other. Not every day is rosy and pleasant. Some days the brothers take off from fighting, but mostly fighting and arguing is all they do.

I really enjoyed this book. It made me think about my brother and I. It is like I am Greg and my brother is Rodrick. When you read a book like this, you definitely think of the people who are going through the same thing!

By: John Martinez

Have you ever lived a wimpy life? Well that is how Greg Heffley's life is. Greg is a kid that gets bullied by his own brother, Rodrick. If you want to learn more, you can read: Diary of a Wimpy Kid: Rodrick Rules, by Jeff Kinney.

Greg is in middle school and he has a best friend, Rowley. His brother Rodrick is in high school, and since Rodrick is older he always bullies Greg. All Greg wishes for is to not be bullied, and in school he does not get bullied but at home it is a different story. Also at home, Greg has a younger brother, Manny, who always tattles on Greg and gets him into trouble.

Warm Colors, Leaves, Magic!

Submitted by Ms. Cherchio, Art Teacher

During the Fall season students learn about the warm colors in Art: yellow, red, orange and brown. Second grade focuses on the leaves falling during Fall and create a leaf collage colored in oil pastels and paint. The results are just as beautiful as the real thing!

In third grade students use their knowledge of warm colors to create a silhouette picture. First they paint the background in lines of red, orange and yellow and then create an image using black paper. Check out our results in the gallery below.

Project CHILD FIND

1-800-322-8174

Project CHILD FIND is a free referral service and public awareness campaign to assist in the identification of unserved / underserved youth with a delay or disability from birth through twenty-one years of age. In addition, **Project CHILD FIND** develops and distributes information to the public about early intervention services and special education programs throughout New Jersey.

Project CHILD FIND's comprehensive efforts include:

1. Assisting families of infants and toddlers, **birth through two**, concerned about their child's development by directing all requests regarding **early intervention** to the family's local Special Child Health Case Management Unit. If you need the number for your Special Child Health Case Management University **Project CHILD FIND 1-800-322-8174**
2. Assisting families of preschoolers, **three through five**, concerned about their child's development by directing requests to their local school district.
3. Helping families access community services through referral.
4. Promoting community and public awareness of all children with disabilities by providing information.
5. Assisting local school district boards of education to identify unserved children from age **three through twenty-one** who are in need of special education and related services, including those students who are migrant or homeless.

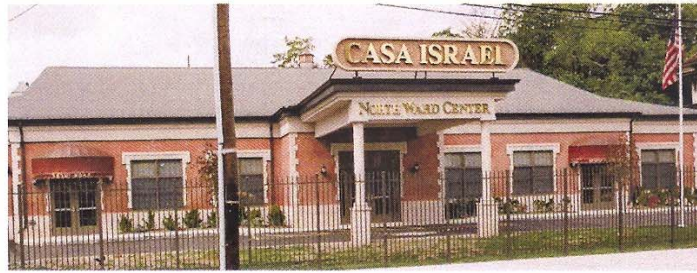

Information through **Project CHILD FIND** may be obtained by calling the toll-free number, **1-800-322-8174**, which is in service 7 days a week, 24-hours a day.

All calls received are confidential.

Project CHILD FIND was established by the New Jersey Department of Education through I.D.E.A., Part B funds from the U.S. Department of Education.
