

Project Grade Sheet

NAME:

CLASS PERIOD:

Assignment: Elements and Principles of Design Book:

Students were introduced to the Elements and Principles of art and design. Students learned the relationship between elements and principles and the way they are utilized in visual art. Students discussed and showed understanding of the different ways to visually express the different elements and principles.

Students were graded on completion, evidence of planning before the final composition, craftsmanship, ability to create accurate visuals for all elements and principles, creativity, and understanding/following assignment directions and expectations.
