2023-2024 Return to In-Person Learning Plan

Revised 07.20.2023

Safety remains a priority for the 2023-2024 school year. Tattnall County Schools will continue to monitor health concerns, and decisions will be made locally at the system level.

Things to Know:

- 1. COVID-19 Transmission Prevention Strategies Remain a Priority.** Protecting our students, teachers, and staff from infection is critical to ensuring that instruction continues without interruption. Schools will continue to use physical distancing when possible and encourage proper hygiene practice, such as washing hands regularly and using hand sanitizer. Students and staff should self-monitor daily for COVID-19 symptoms. Buildings will be cleaned and sanitized daily or as often as needed to prevent contamination or virus transmission.
- 2. Masks are optional in the schools and on buses.**
- 3. Visitors are welcome in the buildings.** Masks are optional for visitors in the school system. Prior to school functions, our schools will share guidance on the school websites and social media.
- 4. Meals will be served in the cafeteria.** All student meals will be served in the cafeteria unless there is a school activity or an increase in positive cases that lends itself to having meals in another location such as outside and in classrooms.
- 5. Transition procedures may be adjusted.** Structured transitions may be adjusted based on an increase in positive cases to control crowds in the hallways.

We welcome your input about our in-person learning plan. Please provide any feedback to the administration at your child's school.

Plan is subject to change based on DPH guidance.

"Whatever It Takes"
