How to Use TumbleBooks in Your School and Classroom

CONGRATULATIONS!
YOUR SCHOOL NOW HAS A TUMBLEBOOKLIBRARY SUBSCRIPTION!

You're joining thousands of schools around the world who are offering their students and teachers unlimited access to this great resource.

> ***"We use it in classrooms for the whole class to see and hear a book. As well as independently in literacy stations. In the Title 1 programs, we send home bookmarks with password for parents to use at home with their children. We educate parents on how and why to use TumbleBooks at each parent meeting. This is a great way to get unlimited books into the hands of our lowest reading children."***

Getting Started | How To Use | Our Categories | Our Features | Devices

GETTING STARTED

Ok. You now have the subscription. What's the best way to get started?

1. Add your subscription's unique TumbleBookLibrary direct link to your website!

   The link can appear ANYWHERE on your school's website! (Or anywhere on your District's website if it's a district-wide purchase).

2. Sign-in to your subscription, and visit the TumbleAdmin* section of TumbleBookLibrary to find our wide selection of exciting banners and icons to use with the link!

   **The button for TumbleAdmin is green, and can be found in the footer of the website.*

3. But how does the Link work, exactly?

   Your school's unique link is a special URL that is encrypted with your account's username and password. That means that your students can access the collection with just a single click – from home and from school! There's no need to remember the username and password!

GETTING THE WORD OUT:

The next thing you'll want to do is get the word out to your fellow educators, as well as your students and their families!

We're often surprised to see teachers from subscribing schools sign up for free trials because they're unaware that their school already subscribes.

In addition to notifying your media specialists and classroom teachers about your school's new subscription, you'll find that the educators who are going to derive the most benefit from the collection are special education, ESL, and technology teachers.

"Each fall, I send home login information to our families. This way, families who don't have books at home or who can't afford to buy books, have access to hundreds of rich books on their home computer and/or tablet"

They will be front and center in using TumbleBooks and also your biggest cheerleaders when it's time to renew.

"I use the books in a variety of ways including whole group lessons, small group lessons and to make books more accessible to special needs students […] Sincerely, I am so grateful for TumbleBooks and thankful for the ease of incorporating it into my class and giving special needs students a variety of ways to be part of the class."

HERE ARE SOME TOOLS AND TIPS TO HELP GET YOU STARTED:

1. We are pleased to provide you with free bookmarks and stickers which contain instructions for your students.
2. Download and print your own bookmarks from TumbleAdmin
3. Download a customizable Parent Letter that you can print out and distribute among your school community!
4. Download the app!

Download on the App Store

Click HERE for Apple products

ANDROID APP ON Google play

Click HERE for Android products

The app is EASY to use. Simply install the app on your favorite mobile devices, and then enter your school's username and password. TumbleBookLibrary will be available at the click of a button, from the homescreen of your device, 24/7.

Note: just like accessing the site by a regular browser and direct link, the app needs an internet connection.

HOW TO BEST USE THE COLLECTION

INTRODUCTION

> ***"The students love to follow along with the picture books. They love the animations, which go along with the words making it enjoyable and educational."***

Use it for independent reading, group activities, story time, lessons, and more!

And, as a digital library of animated talking picture books, it has the added bonus of being accessible – 24/7 – from any device with an internet connection.

> ***"I have the tricky task of trying to teach both technology and library at the same time. Unfortunately, this means that sometimes both subjects come up short. […] I only have 5 minutes between classes […] This is when I use TumbleBooks. My K-2 students are in the routine of coming to the library and sitting down to listen to a story while I take care of business. I try to choose stories that relate to topics they are working on in class. I find that it is easier for large groups of students to see and hear the stories when they are projected onto my white board rather than when I just read out of a book."***

The collection partners well with school library and serves to enhance and support your collection of physical books. And from home, TumbleBooks provides your students with a huge library of books at their fingertips, anytime they want.

> ***"I also use the site when I am looking for a book which I don't have in my classroom or school library"***

Best of all, because the collection is digital, there is an unlimited number of copies of each title. Books are never checked-out, never on hold, never damaged, and NEVER have apple juice spilled on them!

> ***"I love TumbleBooks because it significantly expands my library collection. I teach Grade 1 in an inner-city area and it allows my students to have access to stories that we wouldn't otherwise have a hard copy of in our classroom library."***

> ***"More kids read TumbleBooks than download e-books from our other downloadable service, because of the animation, games, easy access (no e-reader required), and unlimited fun."***

INDEPENDENT READING, FOR SCHOOL OR FOR PLEASURE:

At School: Has a child finished an assignment or test early and needs something to do while others finish? TumbleBooks! Bring some variety to your DEAR time! Drop-Everything-And-Read TumbleBooks! Even set up a TumbleBooks station for children during snack time and rainy days spent indoors.

> ***"We use TumbleBooks during our "Daily 5-Read to Self" Centres in our primary classes."***

At Home: Exchange after-school cartoons with after-school TumbleBooks! Quiet time before bed! You can even use TumbleBooks on road trips! TumbleBooks is a great way to enhance family literacy and at-home reading.

HOW DOES TUMBLEBOOKLIBRARY HELP ENCOURAGE CHILDREN TO READ? HEAR MORE OF WHAT OUR SUBSCRIBERS HAVE TO SAY:

> ***"I am a grade 3 teacher and my class loves TumbleBooks. They ask me to play something every day. It gives us a chance to listen to a story together and either have a good laugh or a great discussion together. I love it both as pure entertainment and as a teaching tool."***

> ***"TumbleBooks is such a good way to support the love of reading in my children. We use it as a literacy station and the children have the opportunity to choose what they want to see, whether it is an old favorite or new read, they enjoy the freedom of choice."***

> ***"I use TumbleBooks as part of our Quiet Time. I teach Kindergarten, and students come in after lunch, read to themselves, and then we watch TumbleBooks for 10-15 minutes."***

STORY TIME:

Enhance your classroom or library story time by displaying TumbleBooks on your Smart Board or class computer. Teachers have told us how they will read a book as a class, and interact with the text in real-time. It's a great way to work with new concepts, vocabulary, and comprehension.

LEARNING NEW THINGS:

TumbleBooks diverse collection connects to curriculum topics and supports what children are learning in class. In addition they have the freedom of choice, and can select titles on subjects that interest them.

> ***"It gives them choice, gives them some control over their own learning, all while at an appropriate reading level. What could be better?"***

There are MANY regular non-fiction titles about science, geography, mathematics, history, and more. (Premium subscribers have a large selection of Math stories too!) In addition, there are lots of non-fiction-inspired story books, as well as books which teach valuable life lessons.

Students can find new interests or stoke the fire of current interests by browsing our site. TumbleBooks' Story Books can be a great and accessible way to introduce new ideas and information.

> ***"In the library students are able to read books of their each individual interests and are able to explore new topics available to them at their fingertips."***

IN THE CLASSROOM:

The collection is also an amazing educational resource. We provide lesson plans, quizzes, and Common Core-aligned resources to help integrate the books into your curriculum.

> ***"TumbleBooks is a favorite at our school! The teachers use the books to introduce lessons, engage students in activities, and promote the love of technology through reading"***

Our subscribers have used TumbleBookLibrary in MANY ways:

DAILY LESSONS

> ***"The teachers use it in their literature lessons as well as myself (a librarian), uses it as another tool to love books even more! Every classroom uses it!"***

With the help of our hundreds of educator resources – like quizzes, lesson plans, and book reports – TumbleBooks' engaging stories can be integrated in to any lesson! Social Studies, Language Arts, Reading, and more!

ESL STUDENTS

With the large list of Spanish, French, and bilingual TumbleBooks, the site can be used in ESL and second-language classes for story time, independent study, and for comprehensive language learning.

> ***"I like TumbleBooks because it allows our English Language Learners to develop their reading skills."***

SPECIAL NEEDS CLASSES

TumbleBooks' open nature lets children of all levels, interests, and abilities read and interact with titles at any level. The titles are accessible and enjoyable by special needs children and they help facilitate their class participation alongside the rest of the class.

> ***"I work with students who have significant disabilities - they are extremely engaged in technology and so this is a critical tool to meeting their needs and interests for reading. The students take ownership of their learning when using TumbleBooks - it is a wonderful tool that we will continue to use!"***

MATH, HISTORY, SOCIAL STUDIES, AND GEOGRAPHY LESSONS

> ***"My students and I love it. We can always locate a book easy that connects to what we have been studying."***

Just as with Social Studies, Reading, and Language Arts classes, TumbleBooks' extensive and varied non fiction sections can be utilized in classes you might not normally associate with picture books! TumbleBooks' picture books are both entertaining AND educational, and they help teach children new and complex concepts that might be difficult to grasp in regular non fiction books.

ONE-ON-ONE TUTORING

> ***"I also utilize TumbleBooks with my tutor students!"***

TumbleBooks is not only great for class-room story time, but it's also an invaluable tool for one-on-one teaching. Our teachers have told us how they'll sit with a child and read a book together… pausing to discuss vocabulary words and concepts along the way. Not only that, but they've also used it for Buddy Reading where a younger student is paired with an older classmate.

ENCOURAGING RELUCTANT READERS

TumbleBooks' format attracts readers of all abilities and interests. Teachers have told us how students with little interest in picking up a physical book will spend hours reading TumbleBooks for FUN as well as for class time!

"I love how easy TumbleBooks is to use. Also how it engages reluctant and struggling readers!"

CLASSROOM STORY-TIME

"My class loves to come up to the smart board and follow along with the story and answer the questions to the quizzes."

As quiet time between lessons, indoor recess on a rainy day, a reward for hard work, or to introduce a lesson – Teachers have told us how much they love using TumbleBookLibrary for story time! TumbleBooks looks AMAZING on Smartboards as well as smaller format monitors and tablets. Children sit rapt, listening/watching the story, and are eager to participate in a discussion about the book.

SPEECH THERAPY

"I love the oral interpretations of the books. It allows my students to hear good readers with expression. The book selection is great."

TumbleBooks story books are professionally narrated, and when combined with highlighted text for kids to follow along, they're a great tool for speech therapists to use while helping children. The books let children hear a variety of voices, styles, pronunciations, and emotions through the narration – which serve as a great supplement to the therapist's instruction.

LANGUAGE ACQUISITION

"Many of the ESL students like to listen to the same stories over and over and this is a very good tool for language acquisition!"

TumbleBooks'' content goes as young as Kindergarten… officially. But *unofficially*, our books have been enjoyed by children barely old enough to hold a tablet on their own! In addition, ESL and second language learners use TumbleBooks to help master the nuance of a new language.

TECHNOLOGY CLASSES (MORE ON THAT BELOW!)

Let us know how you're using TumbleBookLibrary in the classroom and in your school!

"Each time we have computer time, they would ask to read TumbleBooks."

COMPUTER LABS:

TumbleBookLibrary is a great way to encourage tech savvy youngsters to become familiar with computers, the internet, and how websites work, in a safe and engaging web environment.

"Many times I use TumbleBooks to enhance my literature lessons. I will read the book first, discuss the worksheet with my students, then can view the story together on my Smartboard. Viewing a story a second time in a different format allows students to see the story in a new perspective."

HOLIDAYS AND THEMES:

TumbleBookLibrary features a large selection of books that fit specific themes. There are books for almost every major holiday (and more coming!) as well as summer books, books about family, first days of school, new siblings, allergies, bullying, and more!

"During holidays and special theme days, we use TumbleBooks to promote a theme."

SUMMER TIME!

TumbleBookLibrary subscriptions run for a full 12 months. That means you will still have unlimited access over the summer!

"TumbleBooks has helped our students gain more opportunities to read outside of the school day."

Set your children up with reading lists before they leave for the summer!

Try Summer Reading challenges!

"Using our TumbleBook subscription is encouraged during holidays when we do not send library books home. We send home the login password on reminder slips."

Not all children have access to physical story books at home over the summer. And, with many children in child care due to working parents, they may not have someone to read to them when they want. This is a time when TumbleBooks can really help!

TUMBLEBOOKLIBRARY BOOKS AND CATEGORIES

STORY BOOKS

TumbleBookLibrary's Story Book collection is the heart and soul of our library. The books are beautifully animated, and professionally narrated, with highlighted text so children can follow along.

> ***"The website makes it like having a celebrity reader in our room daily."***

The Story Books come in a wide range of subjects, styles, and reading levels. We license best-sellers and award winners from the world's top publishers like HarperCollins, Candlewick Press, and Simon & Schuster.

> ***"We also use TumbleBooks to kick-start a lesson about a specific author that we are studying. Last year we focused on Robert Munsch, it was very beneficial to have his collection on Tumble Books as the students LOVE to hear Robert Munsch read his own stories!"***

Do you have a favorite book you'd love to see "Tumbled"? Let us know! Send your title suggestions to **info@tumblebooks.com**. Be sure to include the author's name too, if you can.

READ-ALONGS

Read-Alongs are narrated chapter books with highlighted text so kids can follow along. The books are flexible enough for confident readers to read on their own too!

TumbleBookLibrary Premium has a large selection of Read-Alongs for kids from grades 2 to 6, including contemporary fiction, adventure, mystery, and children's classics like Anne of Green Gables and Huckleberry Finn!

EBOOKS

TumbleBookLibrary Premium's Ebook collection are full-length chapter books for kids from grades 2 to 6. They're ideal for independent reading (whether for school or for pleasure!) and for curriculum integration.

The collection features award winners like *The One And Only Ivan*, *Ella Enchanted*, and *Fortunately, the Milk*!

GRAPHIC NOVELS

Graphic novels are a fantastic way to help encourage readers of all abilities and preferences to read in an exciting and accessible way!

"I have used it to introduce graphic novels and chapter books to our older students who have become so accustomed to reading TumbleBooks when they were in the primary grades"

TumbleBookLibrary Premium's Graphic Novel collection has over 60 comics starring kid-favorites like Nancy Drew, The Hardy Boys, The Smurfs, Lego Ninjago, Geronimo Stilton, and MORE!

Your students will be hooked!

NON FICTION

Our Non Fiction section features both animated story books and longer length ebooks in reading levels from kindergarten to grade 6.

"Teachers and students are also using TumbleBooks for research with the non-fiction books and videos."

There's a large selection of genres (and cross-over genres!) from which to choose: History, science, ecology, geography, historical science, biological geography, and more!

Non fiction story books are a fantastic and accessible way to introduce new concepts to children.

MATH STORIES

Just like our Non Fiction titles, the Math Stories are a great way to introduce new concepts to children!

"At home, the students enjoy the games, videos and math features."

From simple patterns and numbers, to fundamentals of geometry and pi… or from the basics of coins and money, to budgets and economics… TumbleBookLibrary Premium's Math Stories help to bring concepts from math class into children's daily lives!

LANGUAGE LEARNING

The Language Learning section features story books in Spanish and French, and is ideal for both ESL students and second language students. In addition, many of the Language Learning books have English counter parts!

"Our bilingual and ESL students use it every day and benefit from hearing and seeing the English language spoken at the same time"

In addition, you can navigate the whole site in Spanish or French by clicking on the Language dropdown menu on the top right hand corner of the page, and selecting your desired site.

> ***"I work with a very diverse population of students both English and Spanish speaking and mostly intensive readers. It was nice to find some books in both languages and that appealed to each culture of students."***

You can also visit them directly using these URLS:

Spanish: **www.BibliotecaTumble.com**
French: **www.BiblioEnfants.com**

Your login information for **www.TumbleBookLibrary.com** will work on these sites too!

> ***"Since I am a Teacher Librarian I love love love using Tumble Books. It is an amazing interactive site that engages all students and is wonderful with students who have special needs and students who do not have English as their first language."***

NATIONAL GEOGRAPHIC VIDEOS

TumbleBooks partnered with National Geographic to bring subscribers a wide range of informational videos! From wildlife profiles to Exoplanet exploration – there are 190 videos on almost every subject!

> ***"Students love to ignite their imagination with TumbleBooks! We love the new National Geographic videos and all the non-fiction books!"***

PLAYLISTS

Our collection features over 100 pre-made playlists from which you can choose! Each Playlist includes 2 or more TumbleBooks: some are themed playlists, some are for certain reading levels, and some are just for fun!

Are you in the mood for stories about animals? Is it the first day of school? Do your kids need some imagination inspiration? We have you covered!

PUZZLES AND GAMES

TumbleBookLibrary's Puzzles and Games section provides entertaining and educational activities based on your kids' favorite TumbleBooks. There are puzzles, memory games, crosswords, match-the-sentence games, and more!

Use the Puzzles and Games to help integrate the story books into your lessons, or as a fun reward for students' reading activity.

OTHER FEATURES OF TUMBLEBOOKLIBRARY!

TUMBLEADMIN

Every subscription includes access to a personalized TumbleAdmin section. You can access The TumbleAdmin section anytime by signing into your TumbleBookLibrary subscription and clicking on the green button at the bottom of the home page.

The TumbleAdmin page includes your account user statistics, access to the teacher TumbleTracker portal, and marketing materials for you to use on your website and newsletters.

Note that TumbleAdmin is not password-protected as it displays NO sensitive information.

USAGE STATISTICS

TumbleBookLibrary tracks the usage statistics for every account. To see the total number of books read by your students, as well as a monthly breakdown for the last 3 years, simply click on the green TumbleAdmin button.

For school subscriptions: the Usage statistics also display the number of quizzes taken and lesson plans viewed on your account.

For School/Library partnership accounts: You'll see multiple locations listed, but the primary account holder (eg: the library) is a cumulative total of all users' activity.

TUMBLETRACKER

Your subscription includes the NEW TumbleTracker feature! Send us a list of interested teachers' email addresses to sign up! We'll send out user information for each teacher.

> ***"At the end of every school year, we tell our student's parents and staff how many library books were borrowed and how many TumbleBooks were read on line (using our brand new TumbleTracker program) and then award the student and teacher with the most reads a certificate."***

TumbleTracker lets teachers set up their students with unique IDs so that they can track their reading progress, assign books to read and quizzes to take, and even tailor assignments based on student activity.

Click HERE for more information

COMMON CORE PORTAL

TumbleBooks exclusive Common Core Portal helps educators find specific lesson plans and TumbleBooks to help fulfill core level requirements.

Simply click on the Common Core link in the blue navigation bar to access the feature anytime!

The Common Core portal offers tabs for Reading: Literature, Reading: Informational Texts, and Mathematics. Within each section, we list the levels for kindergarten through grade five.

It is a great resource for guiding educators through TumbleBooks' many resources and for highlighting how the materials can be used in class lessons and activities.

TUMBLESEARCH

The top right corner of the site has a link to our TumbleSearch feature. TumbleSearch allows you to find JUST the right book for you*: by subject*, *length*, and *reading level*s!

In addition, our *Search By Title* and *Author* areas have an auto-fill function that help young readers find the titles they're looking for, even if they might have a hard time spelling the words correctly.

The *Search By Title* and *Search By Author* sections are great to use if you know exactly what you're looking for. Were you reading a book called "Hello Sun" last week, but can't remember where to find it? Just enter the title and it'll pop right up!

STORY BOOK OF THE DAY

Visit TumbleBookLibrary every day to see a new highlighted *Story Book of the Day*! We also highlight Graphic Novels, Non Fiction, Read Alongs, and Videos of the day!

When you log in to TumbleBookLibrary, the *Story Book of the Day* slider is at the forefront of the home page, and it rotates between the other book categories every few seconds.

Inspiration can come from many places, and we hope that our *Book of the Day* feature may help you find your new favorite read! Help you revisit an old favorite! Most of all, we hope it will help you explore everything the site has to offer.

FAVORITES AND PLAYLISTS

Have you found a book you LOVE and want to come back to it again later? Add it to Favorites by clicking on the "Add to Favorites" button beneath the book cover.

Or, do you want to set up your student with a 30 minute block of stories while you work with another student? Click the “Add to Playlist” button.

These two features are great tools for organizing your TumbleBookLibrary, and coming back to specific books later on.

Simply be aware that these featured are saved on individual computers or devices. This means that if a student makes a list on one device, they should use that device again the next time they want to see their list.

Your list of Favorites and Playlists can be accessed by clicking on the blue Favorites and Playlist links in the navigation bar at the top of the page.

Note that these Playlists are ones you make yourself! Whereas the pink Playlist category tab features over 100 pre-made Playlists created by TumbleBooks.

INDEX

The TumbleBookLibrary Index is a live list of all active titles in the collection.

The hyperlinked headings let you sort the list by Title, Author, Book Type, or AR level! There’s even a “Story Books” button which allows you to pull out just the story books from the original list.

You can jump to a specific area in the list by clicking on one of the alphabet buttons. Finally, the Index also has a red speaker icon which shows you if a title includes audio narration or not. It’s a great way to see – at a glance – all of our read-along story and chapter books.

TUMBLETIMES AND WORD COUNT

There are many ways in which teachers can determine the suitability of a book for their children. The length of a book is definitely one of them. TumbleBooks supports our readers’ book choices by displaying both the word count and the “TumbleTime” length for each book in the collection. You can find this information on the right side of a book display page, under “Book Details”.

"I like that I can search by TumbleTime to find a title that fits the topic I need and the time frame I have available"

READING LEVELS

TumbleBooks displays the pertinent reading levels for every book in the collection (where available). You’ll find Accelerated Reader (A/R) and Lexile levels, and grade levels.

“Each child feels like an independent reader, regardless of the level that he/she is on.”

While you'll find that the AR and Lexile levels give specific levels, the grade levels feature ranges like K-3 or 1-4. TumbleBooks' grade level ranges are based on publisher suggestions, and represent more the "interest" level than the exact "reading" level of a book.

"The fact that the levels of books available are so far-reaching makes this a wonderful site for classrooms---virtually any child can utilize the features on this site. In addition, with TumbleBookLibrary's unique talking picture book format, the range of readers to whom our books are accessible are much wider than if they were only read-on-your-own. For instance, a 1st grader can select a book beyond their independent reading level and learn and enjoy it as much as a more advanced reader. "

AR INFO

Not every book in TumbleBookLibrary has an AR level available, but for every book that is a part of the AR program, we list the applicable information for you to use in your school.

"Our students are avid readers and Accelerated Reader participants so TumbleBooks is really a great tool for them to enhance their reading and earn AR points for which they are rewarded."

The AR information includes: quiz numbers, interest level, points, and word count.

To access the AR information, simply click on the link in "Accelerated Reader: Info" under the Book Details section.

YOU MAY ALSO LIKE

The TumbleBooks family are all avid readers at heart, and we know all too well that finding your next favorite read can be intimidating. ESPECIALLY if you just finished one fantastic book: how can anything else compare?!

Now TumbleBookLibrary features the "You May Also Like" section to help guide and inspire our readers' journey through the collection! On every book detail page we have curated a list of books that perfectly compliment the book you just read!

LESSON PLANS

It's our goal to help teachers use TumbleBookLibrary in their classes, and to get the most out of their subscription! So, when you click on the green "Lesson Plans" link beneath the book cover, you'll find lesson plans that help educators integrate the TumbleBook into their daily lessons.

"We use TumbleBooks not only as part of our lesson plans and to tie into the curriculum, but also during enrichment."

QUIZZES

TumbleBookLibrary features hundreds of book-specific quizzes that help educators measure their students' comprehension of the TumbleBooks they're reading.

> ***"The quizzes offer students feedback, and also encouragement as they continue to read. This promotes a feeling of success among students, and furthers their love for literature and reading."***

In addition to a variety of quiz lengths (there are short 5-question quizzes, longer 10-20 question quizzes), we have quizzes on comprehension, vocabulary, and other concepts.

> ***"It is a quick and easy way of finding a book to go with a lesson and assess comprehension skills on various levels."***

Many of our quizzes are integrated with the Common Core curriculum levels which are highlighted in the quiz descriptions.

> ***"I love that there are quizzes. We usually do these as a class after listening to a story."***

BOOK REPORTS

TumbleBookLibrary's Book Report feature lets students write up a report online and print it at school!

There are two levels of book report questions: Grades K-3 and Grades 4+

PAIRED VIDEOS AND BOOKS

Many of our National Geographic videos are paired with TumbleBook story books (in fiction and non fiction). Working together, the informative National Geographic video and the educationally entertaining TumbleBook can help students more thoroughly understand different concepts, and see different perspectives of complex ideas.

WHAT KINDS OF DEVICES OR COMPUTERS CAN WE USE TO ACCESS THE SITE?

TumbleBooks is compatible on computers and mobile devices like phones and tablets!

However, your experience on the site may differ a little based on your device. Every user logs into **www.TumbleBookLibrary.com**, but you should be redirected to one of our mobile websites if you're on a tablet or a phone.

COMPUTERS (PCS AND MACS):

Flash is the primary format of the content on **www.TumbleBookLibrary.com** which is why this site will only work on computers and browsers with an up-to-date Flash Player plugin installed.

Note that after logging in on a computer, you may see "**asp.TumbleBooks.com**" in the address bar. This is normal! About half of our users get redirected here. As a way to alleviate stress on our servers, we split our subscribers into two servers rather than just one.

"I liked that it was easy to use and child-user-friendly. My kids quickly learned to click on books and make choices independently."

IPAD AND ANDROID TABLETS, OR CHROMEBOOKS:

Our site is fully compatible on tablets! You would access TumbleBookLibrary on a tablet using the same method you'd use on a computer.

Except, after logging in on a tablet, you'll be directed to this URL: **www.TumbleMobile.com**.

TumbleMobile looks and works the same way as the main site, with only a few small differences: the story books are delivered in a video format (.m4v and .mp4) rather than in Flash.

APPLE IPHONES AND ANDROID SMARTPHONES:

When you log into TumbleBookLibrary on a smartphone, the experience is very different than it is on tablets and computer.

First, the URL in the address bar reads: **mobile.TumbleMobile.com**.

Second, the graphics on the site were redesigned to be easily viewable on a smaller screen. In addition, the Phone site is lighter and more intended for “on the go” reading, as it does not have the full complement of educator resources or special functions at this time.

“The students at my school absolutely love the idea of the stories being read on tablets.”
