The Board also directs that all students attending District schools in grades 8 through 12 receive instruction in the history, meaning, significance and effect of the United States Constitution, the New York State Constitution, and the Declaration of Independence.

The curricula for these courses must include the subjects specified by the Board of Regents and be for the period of instruction, as mandated by the Regents, which is necessary in these subjects in each of the appropriate grades.

One week during each school year a uniform course of exercises will be provided to teach students, in an age appropriate manner, the purpose, meaning, and importance of the Bill of Rights Articles in the United States and New York State Constitutions. These exercises will be in addition to the above required courses.

In addition, since the District receives Federal Funds for a fiscal year, it will hold an educational program on the United States Constitution on September 17th of each year for the students in the District to commemorate the September 17, 1787 signing of the Constitution, known as Constitution Day and Citizenship Day. However, when September 17 falls on a Saturday, Sunday, or holiday, this day will be held during the preceding or following week.

The Board directs that the above named subjects, as mandated by law, be addressed in the instructional curricula provided by the District.

**SUBJECT: INSTRUCTIONAL TECHNOLOGY**

The Board of Education recognizes its responsibility to further the District's educational goals through the use of appropriate and high quality technology.

Continuing advances in technology are bringing about changes that have an increasing impact on the way we obtain, process, evaluate and use information. Therefore, the District is committed to:

- b) The preparation of students to utilize multiple types of technology.
- c) The integration of technology within and across all curriculum areas.
- d) The equitable distribution and access to technological equipment and materials for all students.
- e) The promotion of technology as an alternative to traditional methods of gathering, organizing and synthesizing information.

## Instruction

**SUBJECT: INTERNET SAFETY/INTERNET CONTENT FILTERING POLICY**

In compliance with the Children's Internet Protection Act (CIPA) and Regulations of the Federal Communications Commission (FCC), the District has adopted and will enforce this Internet safety policy that ensures the use of technology protection measures (i.e., filtering or blocking of access to certain material on the Internet) on all District computers with Internet access. Such technology protection measures apply to Internet access by both adults and minors with regard to visual depictions that are obscene, child pornography, or, with respect to the use of computers by minors, considered harmful to such students. The District will provide for the education of students regarding appropriate online behavior including interacting with other individuals on social networking Web sites and in chat rooms, and regarding cyberbullying awareness and response. Further, appropriate monitoring of online activities of minors, as determined by the building/program supervisor, will also be enforced to ensure the safety of students when accessing the Internet.

Further, the Board of Education's decision to utilize technology protection measures and other safety procedures for staff and students when accessing the Internet fosters the educational mission of the schools including the selection of appropriate teaching/instructional materials and activities to enhance the schools' programs; and to help ensure the safety of personnel and students while online.

However, no filtering technology can guarantee that staff and students will be prevented from accessing all inappropriate locations. Proper safety procedures, as deemed appropriate by the applicable administrator/program supervisor, will be provided to ensure compliance with the CIPA.

In addition to the use of technology protection measures, the monitoring of online activities and access by minors to inappropriate matter on the Internet and World Wide Web *may* include, but shall not be limited to, the following guidelines:

- a) Ensuring the presence of a teacher and/or other appropriate District personnel when students are accessing the Internet including, but not limited to, the supervision of minors when using electronic mail, chat rooms, instant messaging and other forms of direct electronic communications. As determined by the appropriate building administrator, the use of e-mail, chat rooms, as well as social networking Web sites, may be blocked as deemed necessary to ensure the safety of such students;
- b) Monitoring logs of access in order to keep track of the web sites visited by students as a measure to restrict access to materials harmful to minors;
- c) In compliance with this Internet Safety Policy as well as the District's Acceptable Use Policy, unauthorized access (including so-called "hacking") and other unlawful activities by minors are prohibited by the District; and student violations of such policies may result in disciplinary action; and
- d) Appropriate supervision and notification to minors regarding the prohibition as to unauthorized disclosure, use and dissemination of personal identification information regarding such students.

(Continued)

## Instruction

**SUBJECT: INTERNET SAFETY/INTERNET CONTENT FILTERING POLICY (Cont'd.)**

The determination of what is "inappropriate" for minors shall be determined by the District and/or designated school official(s). It is acknowledged that the determination of such "inappropriate" material may vary depending upon the circumstances of the situation and the age of the students involved in online research.

The terms "minor," "child pornography," "harmful to minors," "obscene," "technology protection measure," "sexual act," and "sexual contact" will be as defined in accordance with CIPA and other applicable laws/regulations as may be appropriate and implemented pursuant to the District's educational mission.

Under certain specified circumstances, the blocking or filtering technology measure(s) may be disabled for adults engaged in bona fide research or other lawful purposes. The power to disable can only be exercised by an administrator, supervisor, or other person authorized by the School District.

The School District shall provide certification, pursuant to the requirements of CIPA, to document the District's adoption and enforcement of its Internet Safety Policy, including the operation and enforcement of technology protection measures (i.e., blocking/filtering of access to certain material on the Internet) for all School District computers with Internet access.

**Internet Safety Instruction**

In accordance with New York State Education Law, the School District may provide, to students in grades K through 12, instruction designed to promote the proper and safe use of the Internet. The Commissioner shall provide technical assistance to assist in the development of curricula for such course of study which shall be age appropriate and developed according to the needs and abilities of students at successive grade levels in order to provide awareness, skills, information and support to aid in the safe usage of the Internet.

Under the Protecting Children in the 21st Century Act, students will also be educated on appropriate interactions with other individuals on social networking Web sites and in chat rooms, as well as cyberbullying awareness and response.

**Access to Inappropriate Content/Material and Use of Personal Technology or Electronic Devices**

Despite the existence of District policy, regulations and guidelines, it is virtually impossible to completely prevent access to content or material that may be considered inappropriate for students. Students may have the ability to access such content or material from their home, other locations off school premises and/or with a student's own personal technology or electronic device on school grounds or at school events.

## Instruction

**SUBJECT: INTERNET SAFETY/INTERNET CONTENT FILTERING POLICY (Cont'd.)**

The District is not responsible for inappropriate content or material accessed via a student's own personal technology or electronic device or via an unfiltered Internet connection received through a student's own personal technology or electronic device.

**Notification/Authorization**

The District's Acceptable Use Policy and accompanying Regulations will be disseminated to parents and students in order to provide notice of the school's requirements, expectations, and student's obligations when accessing the Internet.

The District has provided reasonable public notice and has held at least one (1) public hearing or meeting to address the proposed Internet Safety/Internet Content Filtering Policy prior to Board adoption. Additional public notice and a hearing or meeting is not necessary when amendments are made to the Internet Safety Policy in the future.

The District's Internet Safety/Internet Content Filtering Policy must be made available to the FCC upon request. Furthermore, appropriate actions will be taken to ensure the ready availability to the public of this policy as well as any other District policies relating to the use of technology.

The Internet Safety/Internet Content Filtering Policy is required to be retained by the school for at least five (5) years after the funding year in which the policy was relied upon to obtain E-rate funding.

**SUBJECT: ANIMALS IN THE SCHOOL (INSTRUCTIONAL PURPOSES)**

Observation and experimentation with living organisms and animals gives students unique perspectives of life processes. Animals and animal materials should be used respectfully and for the purpose of meeting course objectives.

The Board of Education, in recognizing the educational uses of animals in the classroom, requires that permission be obtained from the Building Principal before animals are brought into the school or classrooms. It is the Principal's responsibility to ensure that there is an appropriate educational purpose if any animal is housed in a classroom. Animals are not to be transported on school buses with the exception of animals certified to assist persons with disabilities.

**Study and Care of Live Animals**

It shall be the responsibility of the Principal or his/her designee to develop a plan of care for those animals housed in school in the event of an emergency school closing or in the event the animals remain in the classroom on days when school is not in session.

**Dissection of Animals**

Any student expressing a moral or religious objection to the performance or witnessing of the dissection of an animal, either wholly or in part, shall be provided the opportunity to undertake and complete an alternative project approved by the student's teacher; provided, however, that such objection is substantiated in writing by the student's parent or legal guardian. An alternate activity clearly related to and of comparable rigor will be assigned in lieu of laboratory dissection. Some examples of alternate activities include the use of computer simulations or research. Students who perform alternative projects shall not be penalized.

Effective July 1, 2011, the District will give reasonable notice to all students enrolled in a course that includes the dissection of an animal and students' parent(s)/legal guardian(s) about their rights to seek an alternate project to dissection. Such notice shall be made available upon request at the school and distributed to parents and students enrolled in a course that includes dissection at least once at the beginning of the school year.

**Instruction in the Humane Treatment of Animals**

Students in elementary school must receive instruction in the humane treatment and protection of animals and the importance of the part they play in the economy of nature as well as the necessity of controlling the proliferation of animals that are subsequently abandoned and caused to suffer extreme cruelty. Such instruction shall be for a period of time as specified by the Board of Regents and may be joined with work in literature, reading, language, nature study, or ethnology.

**Overview of Instructional Materials**Textbooks

The Superintendent will work with District administrators and instructional staff to determine what textbooks should be used as part of the District's instructional program. Upon the recommendation of the Superintendent, the Board will designate the textbooks to be used. Textbooks, once designated, cannot be superseded within a period of five years except by a 3/4 vote of the Board.

The District will ensure that students who require alternative formats of instructional materials receive those materials in a format that meets the National Instructional Materials Accessibility Standard (NIMAS) and at the same time as those instructional materials are available to their peers.

(Continued)

## Instruction

**SUBJECT: TEXTBOOKS, LIBRARY MATERIALS, AND OTHER INSTRUCTIONAL MATERIALS (Cont'd.)**

The District participates in the National Instructional Materials Access Center (NIMAC) which is an online repository of source files in the NIMAS format. Since the District participates in NIMAC, contracts with publishers executed on and after December 3, 2006 for textbooks and other printed core materials must include a provision that requires the publisher to produce NIMAS files and send them to the NIMAC (this will not add any cost to the contract).

The Board will make provision for funds to be budgeted for the purchase of textbooks. Students may be required to pay for lost or excessively damaged textbooks.

Calculators

The New York State Education Department (NYSED) requires the use of calculators for intermediate and high school level mathematics and science assessments. Students are not required to purchase their own calculators. To the extent that calculators are a necessary part of the instructional program, the District will provide them.

Calculators must be considered a classroom teaching material for which the District is authorized to levy a tax. Even if operating under a contingent budget, the District must purchase and provide calculators if required for participation in an instructional program. Students may be required to pay for lost calculators.

Library Materials

The District will establish and maintain a library media center in each school which will contain library materials. The library media center in each District school will meet the needs of students and staff, and provide an adequate complement to the instructional program in the various areas of the curriculum. The District will employ certified school library media specialists in accordance with specific standards contained in regulation, unless equivalent service is provided by an alternative arrangement approved by the Commissioner.

The Board delegates its authority to designate library materials to be used in the District to the school library media specialist(s). When appropriate, the school library media specialist(s) will work cooperatively with the Superintendent, other District administrators, instructional staff, the Board, students, and/or District community members to identify, order, and organize library materials.

When appropriate, the school library media specialist(s) will utilize shared services such as Boards of Cooperative Educational Services (BOCES) to improve programs and services, build collections, utilize new technologies, and maximize funding.

The Board will make provision for funds to be budgeted for the purchase of library materials. Students may be required to pay for library materials that are lost, excessively damaged, or overdue.

**SUBJECT: TEXTBOOKS, LIBRARY MATERIALS, AND OTHER INSTRUCTIONAL MATERIALS (Cont'd.)****Objectives in the Selection of Instructional Materials**

The broad range and varying suitability of all forms of instructional materials which are available for purchase demand careful evaluation before they are selected for use in the District's classrooms and library media centers. In order to select quality print and non-print instructional materials to enrich and support the District's instructional program, the Board endorses and supports the selection of instructional materials that:

- a) Align with New York State learning standards;
- b) Implement, enrich, and support the District's curriculum and instructional program, taking into consideration the varied interests, abilities, and learning styles of students;
- c) Meet the varied needs and interests of staff and students;
- d) Present various sides of controversial issues so that students may develop critical thinking and reading skills resulting in the ability to make informed decisions;
- e) Offer global perspectives and promote diversity by including materials by authors and illustrators of all cultures -- materials will not be excluded because of the race, nationality, religion, gender, gender expression, sexual orientation, political views, or social views of the author;

Adoption Date - September 8, 2022

## Instruction

**SUBJECT: OBJECTION TO INSTRUCTIONAL MATERIALS AND CONTROVERSIAL ISSUES**

The Board recognizes the right of District community members to voice concerns and objections about instructional materials and the discussion of controversial issues. This policy addresses how those concerns and objections can be raised.

**Definitions**

For purposes of this policy, the following definitions apply:

- a) "Controversial issues" means questions, subjects, or problems which can create a difference of opinion. They can include issues which may have political, social, environmental, or personal impacts on students and/or the wider community: locally, nationally, or internationally.
- b) "Instructional material" means any print or non-print material with instructional content or an instructional function that is used to facilitate formal or informal learning either in the classroom, library media center, or elsewhere in the District. Examples of instructional materials include, but are not limited to: textbooks; workbooks; hardcover and paperback books; ebooks; online databases; DVDs; streaming videos; sound recordings; magazines; newspapers; pamphlets; pictures; charts; games; kits; maps; models; microforms; slides; specimens; and transparencies.
- c) "Library material" means any print or non-print material which is catalogued and processed as part of the library media center for use by students and staff. Examples of library materials include, but are not limited to: hardcover and paperback books; ebooks; online databases; DVDs; streaming videos; sound recordings; magazines; newspapers; pamphlets; pictures; charts; games; kits; maps; models; microforms; slides; specimens; and transparencies.
- d) "Textbook" means a text, or a text-substitute, that a student is required to use in a particular class or program of the District. Textbooks include:
  - 1. Books, or book substitutes, including hardcover or paperback books, workbooks, or manuals; and
  - 2. Courseware or other content-based instructional materials in an electronic format.

**Objections to Instructional Materials**

The Board has authority to prescribe curriculum in the District and to designate the textbooks to be used in the District. The parent of a student cannot compel the Board to use a particular textbook or discontinue the use of a particular textbook. Further, the District may not be compelled to assign an alternate curriculum to a student based upon a parent's disapproval of classroom assignments. Students may be able to be excused from instruction in very limited circumstances outlined in law and regulation.

**SUBJECT: OBJECTION TO INSTRUCTIONAL MATERIALS AND CONTROVERSIAL ISSUES (Cont'd.)**

District community members who have questions or concerns about instructional materials are encouraged to bring these questions and concerns to instructional staff and/or the school library media specialist(s).

District community members who wish to formally object to instructional materials must submit their objections in writing to the Superintendent. District staff who object to instructional materials must follow the same process as all District community members. Challenged instructional materials will remain in use and/or circulation until a final decision has been made. The Board will be informed of any objection the Superintendent receives.

The Superintendent will designate a review committee to investigate and evaluate the challenged instructional material. The committee will include, among others, the school library media specialist from the building where the objection originated and the building principal. The committee will evaluate the challenged material according to the District's criteria for the evaluation and selection of instructional materials.

The review committee will submit a written report of the results of their review to the Superintendent within 60 days of receipt of the formal written objection.

Appeals of decisions by the review committee may be submitted in writing to the Superintendent who will then submit the appeal to the Board for action.

If subsequent objections after an appeal are issued for the same material within a period of five years, the Superintendent can deny the objection based on the previous review and decision.

**Controversial Issues**

Controversial issues may be studied as part of the curriculum. Instructional staff will present these issues in their classrooms in an impartial and objective manner. It is expected that a library media center's collection, both print and digital, will include items that are considered to be controversial.

Instructional staff wishing to call upon outside speakers to present on controversial issues are required to work with the building principal who will keep in mind the obligation to present balanced viewpoints. The building principal will inform the Superintendent of the presentation on the controversial issue prior to it occurring.

Any objection to how a controversial issue is being taught, including the use of a guest speaker, should be directed to the building principal who will consult with appropriate instructional staff to address the objection.

(Continued)

**SUBJECT: OBJECTION TO INSTRUCTIONAL MATERIALS AND CONTROVERSIAL ISSUES (Cont'd.)**

If the objection is related an instructional material being used in the teaching of a controversial issue, the process requesting reconsideration of library or instructional materials should be followed. Objections to instructional materials by District community members must be submitted in writing to the Superintendent. If the objection is related to the curriculum or New York State learning standards, the building principal will address the matter with the individual(s) raising the objection.

**SUBJECT: RELIGIOUS EXPRESSION IN THE INSTRUCTIONAL PROGRAM**

The Board of Education acknowledges the importance of religion to the understanding of society and the richness of the human experience. In approaching the teaching about religion in the school, the District will be guided by three concepts when making decisions about the appropriateness of activities for inclusion in the school program: the activity should have a secular purpose; the activity should neither advance nor inhibit religion; and the activity must not foster an excessive entanglement of "government" with religion.

Nurturing the development of knowledge and respect for the rights of all cultural and religious groups is a continuing goal of the School District. Students, faculty and administration are reminded of the pluralism of religious beliefs and are urged to be conscious of and respect the sensitivity of others.

Opportunities to learn about cultural and religious traditions should be provided within the framework of the curriculum. Information about religious and cultural holidays and traditions focusing on how and when they are celebrated, their origins and histories should be part of this instruction. This educational opportunity should be handled with great care, sensitivity and respect for the feelings and beliefs of individuals.

An environment should be created and encouraged where students of various ethnic backgrounds feel comfortable in sharing comments about their religious and cultural traditions. No student should be singled out to share or participate in such discussions solely on the basis of that student's identification with the cultural/religious heritage being addressed. A student's preference not to share or participate in such discussions should be honored and respected without penalty.

**School Activities Related to Religious Holidays or Themes**

School activities related to the teaching about religious holidays or themes must be consistent with, representative of, and congruent with the District's curriculum.

In planning school activities related to the teaching about religious holidays or themes, special effort must be made to ensure that the activity is not devotional and that students of all faiths can join without feeling they are betraying their own beliefs.

In planning school activities related to the teaching about religious holidays or themes, age appropriate activities are encouraged within the framework of the curriculum. Teaching about religious and cultural holidays may include such special activities as parties and special foods, if they reinforce educational goals.

**Symbols in the Schools**

The purpose of using religious symbols should be to teach about religious concepts and traditions, and to convey historical or cultural content, not to promote or celebrate religious concepts, events or holidays.

(Continued)

**SUBJECT: RELIGIOUS EXPRESSION IN THE INSTRUCTIONAL PROGRAM (Cont'd.)****Music in the Schools**

The purpose of using religious music should be to teach musical concepts, to convey historical and cultural content, or to create aesthetic experiences in a setting which emphasizes artistic expression and educational value, not to promote or to celebrate a religious faith.

**Curriculum Areas in Conflict with Religious Beliefs**

Students shall be given the option to be excused from participating in those parts of an activity, program, or area of instruction involving a religious theme which conflicts with their own religious beliefs or that of their parents/guardians in accordance with applicable law and regulations. Alternatives may be provided that are of comparable instructional value.

**Implementation**

Administrative regulations will be developed to implement the terms of this policy. Further, the District shall vigorously publicize and disseminate this policy and accompanying regulations in order to ensure community, faculty, student, and parental/guardian awareness.

Home, hospital, or institutional instruction (sometimes referred to as homebound instruction) is an educational service provided by districts to resident students enrolled in a public or nonpublic school who are unable to attend school in person for at least ten days during a three-month period due to illness or injury which requires the student to remain at home or in a hospital or other institution for the treatment of children, other than a school.

The District will provide home, hospital, or institutional instruction to all resident students enrolled in a public or nonpublic school from kindergarten to age 21 when, due to a temporary or chronic physical, mental, or emotional illness or injury, as documented by the student's treating healthcare provider, the student is unable to participate in their usual education setting.

**Definitions**

"Instruction delivery plan" means a written plan to continue the student's academic progress and to maintain a record of delivery of instructional services and student progress.

"School district of residence" means the public school district within the State of New York where the students legally reside with their parents or guardians.

"Treating health care provider" means a person who is treating a student and is licensed or otherwise authorized to provide diagnosis pursuant to a profession enumerated in Title VIII of the Education Law.

"Tutor" means an employee of the school district of residence or an individual with whom the school district of residence contracts to provide home, hospital, or institutional instruction. The tutor must hold a New York State teaching certificate. A tutor may include a teacher employed by a board of cooperative educational services (BOCES) that contracts with the school district of residence to provide this instruction.

**Request for Home, Hospital, or Institutional Instruction**

To request home, hospital, or institutional instruction for a resident student, the parent or guardian must submit a request to the District that includes written medical verification from the student's treating healthcare provider demonstrating the student's anticipated inability to attend school in person for at least ten days during the next three months and written consent authorizing the Director of School Health Services or designee to contact the student's treating healthcare provider. Refusal to provide this written consent will result in a denial of the request for home, hospital, or institutional instruction.

(Continued)

## Instruction

**SUBJECT: HOME, HOSPITAL, OR INSTITUTIONAL INSTRUCTION (HOMEBOUND INSTRUCTION) (Cont'd.)**

The request will be forwarded to the Director of School Health Services who will review the need for home, hospital, or institutional instruction and either approve or deny the request. Within five school days after receipt of written medical verification from the student's treating healthcare provider, the District will notify the parent or guardian whether their request for home, hospital, or institutional instruction has been approved or denied. In the case of a denial, reason(s) for denial will be provided.

Appeals

Parents and guardians may appeal the denial of home, hospital, or institutional instruction to the District's Board within ten school days of receipt of notification of the denial. Home, hospital, or institutional instruction will be provided while an appeal is pending before the District's Board.

**Home, Hospital, or Institutional Instruction Requirements**

The District will provide home, hospital, or institutional instruction to a student within five school days after receiving notification of the student's medical condition or within five school days from the request for home, hospital, or institutional instruction, whichever occurs first. This instruction, which may include remote instruction, will meet the minimum requirements outlined in law and regulation.

**Students with Disabilities**

Students with disabilities who are recommended for home, hospital, or institutional instruction by the Committee on Special Education (CSE) will be provided instruction and appropriate related services as determined and documented by the CSE in consideration of the student's unique needs. This instruction will only be recommended if the placement is in the least restrictive environment and must be provided for at least the number and length of time as provided for other students receiving home, hospital, and institutional instruction.
