

December 8, 2021

Dear Families:

As we have recently completed the second marking period of the Fall Semester (report cards to be distributed on Friday, 12/10). I wanted to take the opportunity to share some updated information on available academic support for students.

Our goal as a school is to ensure that all students regardless of personal circumstance have the opportunity to be successful and achieve at high levels here. As a school, we are also mindful that added support in the aftermath of quarantine and distance learning is also important to support our students' academic growth and address unfinished learning.

With these ends in mind, the following academic assistance is available for students. If your child is struggling, please compel him or her to attend the relevant offerings listed below.

Please also note that many teachers offer lunchtime academic support. Please reach out to your child's teachers directly on whether or not they have this available. Additionally there is also free teacher homework help after hours via telephone (see below).
