

March 1, 2023

Green Team

Agenda and Notes

Attendees: Brooke F., Camryn H., Mrs. Furlong (Advisor)

Agenda:

1. Community Garden update. The Green Team has been involved in the past by doing the seed fundraiser. Ms. Stewart and Mrs. Curtin are also involved and are mostly responsible for getting the garden going each spring. We will offer our support as well with weeding, planting, etc.
2. Follow up with ADK Loon Center (Pailin)
 - a. Current threats to loons and aquatic wildlife?
 - b. Where are the best places to put collection tubes?
 - c. What can we do to help our community to protect the loons and aquatic wildlife?
 - d. Where do we dispose of the fishing line and lead materials?
 - e. Are there pre-made collection tubes, or do you have plans for how to make them?
3. What are our current funds? (Mrs. Furlong) \$348.93
 - a. Will also need to return all the returnables for Lake Eaton in April. That will be a good source of funds and a community service for us.
4. Conversation about composting school food has renewed interest. Maybe we only compost the food during the spring and fall so we don't have to bring food scraps out and turn the composter during the winter months. We need to talk with Mr. Hample about the best way to get this up and running. C and B will work on posters for the cafeteria to show students what can and can't be composted.

Next Meeting Date: Friday, March 3, 2023
