## **Green Team**

### Agenda and Notes

Attendees: Brooke F., Avery P., Anthony M., Camryn H, Trisha Hosley, Donna Furlong (Absent: Daphne S.)

#### Agenda:

1. Freecycle Event! Previously called a “clothing swap”, but we’re jazzing it up a bit to gain interest. We changed the date from March 9 to Saturday April 13 in order to hold it in conjunction with the CTSO. We have tons of clothing to give away. Any clothing that is in decent shape after will be donated. Any clothing that has holes or stains will be upcycled and made into projects by our Green Team members.
  - a. CTSO offered to bring their cotton candy machine for us to sell cotton candy during the event.
  - b. We need to work on marketing the event. We will want to reach out to surrounding towns to hopefully gain attention about the event. Mrs. Hosley shared the flyer she used with the CTSO’s last clothing swap so we can create something similar.
  - c. We could also potentially sell completed projects during the event if the Team has any completed.
2. We will be holding a returnables drive. We will have people drop off clothing and/or returnables in an enclosed trailer that we’re hoping to park at the school the week before the Freecycle event.
3. The Green Team has decided that they would like to focus on Upcycling materials this year. We looked at a bunch of different projects that we can do with recycled materials and they decided on making turtle mops out of material/fabric that we have at school (and donate the finished products to the nutrition site to be given away), no sew pillows with some free pillows we got at Thrifty Nifty, as well as a couple of other projects kids have been researching and trying.
4. We will be meeting tomorrow after school to start on our projects!

Next Meeting Date: Monday, March 18, 2024 during 1st period
