OIL FURNACE & BOILER MAINTENANCE

INSTRUCTOR: TONNY FRENCH

This course teaches you how to service and perform light repair of your home oil furnace or boiler. The class will include a breakdown of all the major components of a typical oil furnace and boiler, as well as their job within the system. Students will learn properties of combustion, air/fuel mixture, flame quality, air distribution, and maintenance of an oil heating system. Students will have a chance to tear down and rebuild a typical oil burner unit, as well as preventative care and learning what specialty tools a technician uses in the field. The class will conclude with trouble-shooting, repair techniques, and parts procurement. Each student will receive a set of nozzle/ignitor gap tools for Beckett oil burners and a handy reference and troubleshooting guide.

SMALL ENGINE REPAIR I

INSTRUCTOR: THOMAS MARSHALL

Come learn to perform preventative maintenance, service, and troubleshooting that will help you avoid frustrating problems.

In this course we will cover: the difference between two and four stroke engine operation, float bowl and diaphragm carburetors, simple tune-ups, and preventative maintenance strategies. We will show you how and when to service your small engines. You will also learn proper troubleshooting techniques, so you can avoid costly repair shop bills.

Students are encouraged to bring in their own engines to work on. Our classroom does have engines to work with if you are not able to bring one in. At the first class, the instructor will determine what equipment can be used.

COURSE DATES:
 10/15, 10/22, 10/29/2019
 11/5, 11/9, 11/12/2019
 12/3, 12/10/2019

SMALL ENGINE REPAIR II

INSTRUCTOR: THOMAS MARSHALL

This advanced course will cover the internal workings of the two and four stroke internal combustion engine. You will gain the knowledge of what it takes to make an engine run. Students will completely disassemble, learn how to use precision measuring tools, recondition, and reassemble an internal combustion engine. If you have a tired old engine that could benefit from a fresh rebuild, this is the time to do it yourself.

***Prerequisite: Basic Small Engine Repair**

Students can bring in their own equipment to repair as you learn. Our classroom does have engines to work on if you are not able to bring one. At the first class, the instructor will determine what equipment can be used.

COURSE DATES:
 10/17, 10/24/2019
 11/7, 11/14, 11/21/2019
