HSW Mtg (11/9/21)

- Two positive Covid cases among students today. Contact tracing and quarantines, plus testing, in progress.
- Hom. Co. Public Health conducting Covid clinic today at Town Hall for qualified populace - kids aged 5-11 ^{booster+kid} plus seniors and other adults in high risk work, with med. concerns.
- Walgreens flu shot clinic on 10/13/21. 17 students, 14 faculty/staff.
- Stricter masking guidelines instituted 9/28/21 by Hom. Co. Public Health.
- Successful lockdown drill on 10/4/21 using new alarm system.
- Backpack program (9 participants) started 10/15/21.
- LLCSD to pilot Test to Stay plan - prospect of reducing ^{Covid} quarantines and keeping kids in school. Needs Town Bd (and school bd?) approval.
- Discussion of A&D policy, signouts, when sports teams are supposed to have them, etc. Need to review Exposure Control Plan, School Safety Plan, and A&D Policy for next mtg.
- Discussion of school playground safety. (We've had three ^{a four} student injuries so far this year.) Our playground has shortcomings in terms of its design for pre-K students, signage to warn customers (students, teachers, parents). Most seem to involve ages of those who use it. Perhaps install playground specially designed for pre-K? Mara to bring subject up at next elementary faculty mtg. in order to garner feedback from teachers.
- Next mtg. in Jan. (TBD.)
