We're learning a
New Study!

Clothes

Learning Experience

Your child will get the chance to explore clothing during this unit of study. We'll talk about the several clothing types suitable for the various weather conditions as we investigate clothing items.

Students will classify several clothing types according to their features and purposes, then compare and contrast them.

Students will investigate various clothing people wear for different jobs and why they need special clothing.

We will explore math and literacy concepts such as comparing sizes, and counting, sequencing and retelling.
