Notes:

1. The club is continuing to build a society. Almost every member has a home built and continues to collect resources that are valuable for other builds. The world is primarily consisting of water so finding land was the first obstacle to overcome. Nathan has decided to create his own land mass where he will build a temple.
2. Students began to barter and trade the resources they have collected or services they are able to provide.
3. The club is going through the process of selecting a mayor for the town. The two candidates are Angel Sotomayor and Mr. Tremblay.
4. Below are some exports of the student homes.

Angel (L) and Pailin's (R) homes.

Angel has created space for livestock.

Bryon (L) and Harrison's (R) homes on an island away from Angel and Pailin.
