DISTRICT 7**

Instructional Focus

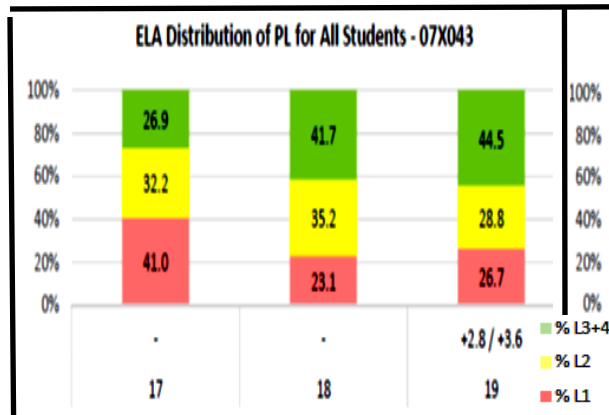

The Jonas Bronck School will build on the work we accomplished last year in relation to literacy-centered discussion protocols and transfer it to mathematics instruction. Carefully constructed math lessons and rigorous activities used in tandem with discussion protocols will spark student inquiry, encourage them to think deeply and in turn will aid them in developing a deeper conceptual understanding of mathematics.

P.S. 43 THE JONAS BRONCK VISION, MISSION, & GOALS

Vision

The Jonas Bronck School is focused on creating a supportive educational and emotionally intelligent environment that is conducive to a school community of learners where all members become engaged in the educational process.

Mission

The Jonas Bronck School is focused on helping our learners develop important decision-making, critical thinking and technological skills, as well as communication skills that will enable them to thrive in the 21st century. Furthermore, our school community members will be active, responsible, contributing members of society who will share accountability for achieving successful student outcomes.
