

**Dear Parents,**

**The following learning activities are designed to help your child carry on with their learning while school is not in session. Your child may work on the activities independently or with a parent. Attached to this page is a suggested schedule that includes academic time. The schedule is not something that you are bound to, but simply a flexible outline to use as you wish. We are aware that during this difficult time family schedules will likely be different in every household. All we ask is that you do what works best for your family.**

**In an effort to space out academics and not overwhelm your child, I've assigned reading and math lessons alternately. Your child has experience with all of the programs and materials being used. I have attached their usernames and passwords for each program. I will be updating their assignments as needed from my own account on i-ready. Once again, all that I ask is that you do what's comfortable for you!**

**Please feel free to contact me at any time for questions, comments or concerns. I have added my phone number and will make myself available between the hours of 9am-11am for any assistance you need or questions you may have.**

**I have set up a google classroom on your child's Chromebook and will leave friendly messages for your kids there! At the bottom of their screen, have them click the green square encased by a yellow outline with a person icon inside. Then have them enter their google classroom password listed on their attached password sheet.**

**I wish you all well and will be thinking of you and your children each day!**
