The completed report is comprised of a Plan of Study, Westbrook’s Current Status, The Impact of Scale, Options Westbrook Could Consider, Options Westbrook Should Consider and different scenarios that were considered. The report contains a conclusion of work of the study group, consisting of a variety of stakeholders to serve as advisory to the Board of Education. Neither the study, the report, nor its participants are meant as a decision making group. Dr. Osga said it was a pleasure to work with this group of people and said that declining enrollment is widespread in New England and Westbrook is wise to take this proactive approach. She stated that the committee worked well and was in agreement with the analysis. She also stated that the Board may want to do a further study. The entire report will be available on the Westbrook website homepage.

- B.** Comments from the audience were as follows:

Gary Gavigan, BOF representative, said that although there are not unlimited resources, money has not been an issue, but the BOE should be active in presenting their needs to the BOF, as they will need to know the expectations of the next 5, 10 and 15 years.

Tony Cozza said that all the options presented are hard and things will happen over time once initiatives are started.

Noel Bishop commented that the group was led by a professional facilitator, and the town will benefit from this proactive approach.

Dee Adorno appreciated those who devoted their efforts to the study group.

Kim Godfrey appreciated the proactive approach.

Lee Bridgewater expressed appreciation for the outstanding leadership (from Dr. Osga).

Sheryl Bauman said that although there are dollars to consider, the town is one big family.

Ruth Rose was appreciative of the value of the parent and community input.

Paul Connelly mentioned the importance of monitoring the cost per student.

Having attended the training, they are now certified to teach Restorative Practices and Circle dynamics to other staff.
