

We're Learning a
New Study!

BUILDINGS

February 2023

In this unit of study, your child will have the opportunity to explore their community.

We will be sharing what we know about buildings and what we want to find out. We will investigate our school building and buildings in our neighborhood.

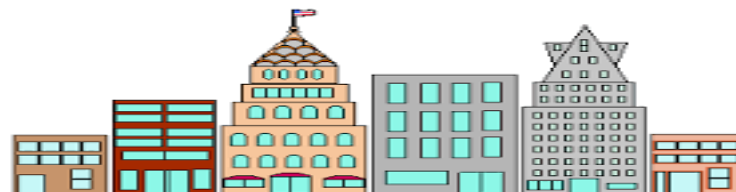

Learning Experience

In the classroom this month, the students will be able to use what they are learning to create a variety of buildings and neighborhoods using many different materials across centers.

We will investigate our school building and buildings in our neighborhood.

We will learn about the jobs of people who build and the tools and vehicles they use.

We will talk about what buildings are made of and what makes them strong. We will also discuss what happens inside some buildings.
