

Project Grade Sheet

NAME:

CLASS PERIOD:

Assignment: ZENTANGLE LANDSCAPE-

Students were introduced to the Zentangle drawing method. Students explored the relationship elements in art have with the principles practiced in design. Students were able to discuss and show evidence of how artists use line, shape, and space to create pattern, contrast, variety, and emphasis within a Zentangle composition.

Students were graded on completion, evidence of practice before the final composition, craftsmanship, ability to design at least 7 Zentangle patterns that are representative of the landscape they created, and understanding/following assignment directions and expectations.
