

Senior Class Meeting – Meeting #13 – 5/18/20

SS & MH Present

In person vs. virtual graduation

- MH parents would miss the in person- Maddie doesn't care about in person
- SS just wants some kind of celebration
- If we can do in person- very very limited-- a possibility but right now we are planning a virtual AND small in person

Keynote- haven't asked yet

- Wooring - explain why she is the person they are drawn to for this large occasion.
 - Large amount of time spend with her
 - consistency for PK- 12 for Syana- watched her grow
 - Helps students to become more open minded about mediums that were initially not interested
 - Easy to talk to about anything - can be themselves - doesn't have to be just
 - Understanding about life circumstances - can show different approaches to get over an obstacle - in art and in real life
 - Go with the flow - free spirit
 - Always checking on students- knows when something is wrong without having to say anything- 6th sense
 - Caring
- Give time to think it over
- How to approach it- set up a meeting time with her- more clearly convey message than in email, more personal
- Set up meeting for this week- Syana will email to initiate meeting- drafted email while on our meeting
