

We're Learning a
New Study!

BALLS

3K/4K December

During this unit of study, your child will have the chance to explore several ball varieties and how they can be used.

As we study balls, we will learn concepts and skills in literacy, math, science, social studies, the arts, and technology.

We'll also be using thinking skills to investigate, ask questions, solve problems, make predictions, and test our ideas.

Students will participate in various experiments to see which ball bounces the highest and which kind of ball rolls the farthest.
