COMMENTS:

American River Campus has had an extremely productive and busy March! Twenty-one American River staff members attended the AMS conference in San Diego with over half of our staff pitching in to volunteer at the Information Booth and within workshops to scan badges for attendance. The verdict on the conference has been unanimous: AWESOME, ENLIGHTENING and WORTHWHILE were the major themes heard at the conference itself and still echoing within our campus hallways. A wonderful highlight for the month of March was our annual World Fair. Each classroom had such wonderful projects, artifacts and food that celebrated the diversity and beauty found on our little planet. Two of our Student Learning Outcomes were highlighted by this year's event that showed that our students as **Montessori Learners** who work independently, demonstrate initiative, utilize the power of concentration, think critically, and are lifelong learners and are **Ambassadors of Grace** and **Courtesy** who celebrate the diversity in our global community. Over \$1400 was raised that will be used to rebuild Honduran beekeeping and honey production. The month ended with Spring Parent-Teacher conferences. During these three days, each teacher was "adopted" by a parent who brought their teacher a special lunch each day. The teachers appreciated the gesture greatly and the feedback from the conferences has been wonderful.
