

EARLY DISMISSAL FORM FOR SNOW CAR DRIVERS/RIDERS ONLY

(Revised 10/16)

Effective 10/24/16 the following will be the policy for student drivers and students who are passengers with a student driver.

Most of our students have access to a school bus to and from school. For safety reasons parents are strongly encouraged to have their child(ren) ride the bus when inclement weather is occurring or might occur. In the event that your child has a car at school during a weather event, please do not call the school giving permission for your child to leave before your public school district dismisses. Students may only drive/ride with other students home from their public school district. This is a matter of safety for all involved. Students having to leave their car because of bad weather will be instructed when to park the car so that we have access for plowing our parking lots. Students will then be responsible for shoveling out their car without putting snow back on parking lots/roads. Parental permission is needed even if student is over the age of 18.

My child _____ has permission to drive home from school when our public school district is dismissing early for snow. These students live in the same school district and my child has permission to take the responsibility for driving them home _____.

My child _____ has my permission to be transported home by _____. This student driver lives in same public school district as my child.

Parents Signature _____

Public School District _____

Parents/grandparents who normally pick up their student(s) after school are asked to follow the times given by their public school district for early dismissals

Students riding the bus need not return this form to school.
Forms are due back to the Main Office no later than Nov 5, 2016.

Thank you for your assistance!

Mrs. Jean Susko, Principal
Mr. Peter Sanfilippo, Dean of Students
