# About Us

The Boys & Girls Club of New Rochelle has served Westchester's youth for over 90 years. Our after-school programs provide affordable care & holistic enrichment for our communities' youth.

Our mission is to enable all young people, especially those who need us most, to reach their full potential as productive, caring, responsible citizens.

We do this by providing the following to our young people:

- A safe place to learn and grow.
- Ongoing relationships with caring, adult professionals.
- Life-enhancing programs and character development experiences.
- Hope and opportunity.

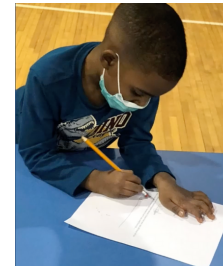

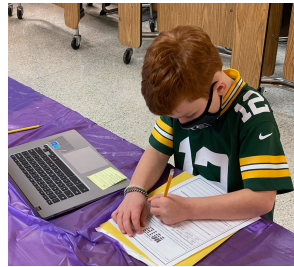

# After-School Programs

We offer a variety of programs that target children's developmental, academic and social needs.

Power Hour helps club members achieve academic success by providing homework help, tutoring and high-yield learning activities.

Triple Play strives to improve the overall health of members. We do this through teaching good nutrition, helping develop healthy relationships & physical activities. These include *sports & social recreational activities*.

# Our Programs (Continued)

## ARTS

Our Arts program develops youth's ability to imagine, express & build connections.

Whether we are painting, drawing or creating collages - our youth develop their motor skills & creative expression. We also explore *digital art, abstract & many other styles*.

## STEM

Our STEM program empowers youth to create new solutions to real-world challenges through project-based activities.
