Introduction to Guiding Policies

Mission Statement

The mission of our Island Park Public Schools is to provide all students with equal opportunities to achieve academic excellence, social awareness, and physical fitness in a nurturing environment created through collaboration and support of staff and parents in the tradition of Island Park as a caring community.

We will enable students to develop the capacity to function as lifelong learners and good citizens who possess positive self-image, commitment to personal excellence, and respect and tolerance for individual differences.

Students will become contributing members of society as critical thinkers and compassionate citizens prepared to face the challenges of this rapidly changing world.

NYSED Commissioner's Regulations Part 100.2

a. Guidance programs

1. Public schools. Each school district shall have a guidance program for all students.
 - i. In grades K-6, the program shall be designed in coordination with the teaching staff to prepare students to participate effectively in their current and future educational programs, to help students who exhibit any attendance, academic, behavioral or adjustment problems, to educate students concerning avoidance of child sexual abuse, and to encourage parental involvement.
 - ii. In grades 7-12, the guidance program shall include the following activities or services:
 - a. an annual review of each student's educational progress and career plans, with such reviews to be conducted with each student individually or with small groups by personnel certified or licensed as school counselors;
 - b. instruction at each grade level to help students learn about various careers and about career planning skills conducted by personnel certified or licensed as school counselors, or by classroom teachers in cooperation with school counselors;
 - c. other advisory and individual or group counseling assistance to enable students to benefit from the curriculum, to help students develop and implement post-secondary education and career plans, to help students

- who exhibit any attendance, academic, behavioral or adjustment problems and to encourage parental involvement, provided that advisory assistance shall be provided by teachers or counselors, or by certified teaching assistants under the supervision of counselors or teachers, and that such individual or group counseling assistance shall be provided by certified or licensed school counselors or by certified or licensed school psychologists or certified or licensed school social workers in cooperation with school counselors; and
- d. the services of personnel certified or licensed as school counselors.
- iii. Each school district shall develop a district plan which sets forth the manner in which the district shall comply with the requirements of this subdivision. The City School District of the City of New York shall submit a separate plan for each community school district, for the High School Division and for the Special Education Division. Such plan shall be filed in the district offices and shall be available for review by any individual. The plan shall present program objectives, which describe expectations of what students will learn from the program; activities to accomplish the objectives; specification of staff members and other resources assigned to accomplish the objectives; and provisions for the annual assessment of program results. The plan shall be reviewed annually by the school district, and revisions shall be made as necessary.
2. Nonpublic schools. Each nonpublic secondary school shall provide a guidance and counseling program for students in grades 7-12.

Guidance Pertaining to Commissioner's Regulation §100.2(j) Guidance Programs and Comprehensive Developmental School Counseling/Guidance Programs

Appendix A §100.2(j) School Counseling

AMENDMENT TO THE REGULATIONS OF THE COMMISSIONER OF EDUCATION

Subdivision (j) of section 100.2 of the Regulations of the Commissioner of Education shall be amended, effective July 1, 2017, to read as follows:

(j) Guidance programs and comprehensive developmental school counseling/guidance programs.

(1) Guidance programs for public schools for school years prior to the 2019-2020 school year and for non-public schools.

(i) Public Schools. Each school district shall have a guidance program for all students.

[(i)](a) In grades K-6, the program shall be designed in coordination with the teaching staff to prepare students to participate effectively in their current and future educational programs, to help students who exhibit any attendance, academic, behavioral or adjustment problems, to educate students concerning avoidance of child sexual abuse, and to encourage parental involvement.

[(ii)](b) In grades 7-12, the guidance program shall include the following activities or services:

[(a)](1) an annual review of each student's educational progress and career plans, with such reviews to be conducted with each student individually or with small groups by personnel certified or licensed as school counselors;

[(b)](2) instruction at each grade level to help students learn about various careers and about career planning skills conducted by personnel certified or licensed as school counselors, or by classroom teachers in cooperation with school counselors;

[(c)](3) other advisory and individual or group counseling assistance to enable students to benefit from the curriculum, to help students develop and implement postsecondary education and career plans, to help students who exhibit any attendance, academic, behavioral or adjustment problems and to encourage parental involvement, provided that advisory assistance shall be provided by teachers or counselors, or by certified teaching assistants under the supervision of counselors or teachers, and that such individual or group counseling assistance shall be provided by certified or licensed school counselors or by certified or licensed school psychologists or certified or licensed school social workers in cooperation with school counselors; and

[(d)](4) the services of personnel certified or licensed as school counselors.

[(iii)](c) Each school district shall develop a district plan which sets forth the manner in which the district shall comply with the requirements of this subdivision. The City School District of the City of New York shall submit a separate plan for each community school district, for the High School Division and for the Special Education Division. Such plan shall be filed in the district offices and shall be available for review by any individual. The plan shall present program objectives, which describe expectations of what students will learn from the program; activities to accomplish the objectives; specification of staff members and other resources assigned to accomplish the objectives; and provisions for the annual assessment of program results. The plan shall be reviewed annually by the school districts, and revisions shall be made as necessary.

[(2)](ii) Nonpublic schools. Each nonpublic secondary school shall provide a guidance and counseling program for students in grades 7-12.

(2) Comprehensive developmental school counseling/guidance programs. Beginning with the 2019-2020 school year, each school district shall have a comprehensive developmental school counseling/guidance program, for all students in kindergarten through grade 12. Each school district shall also ensure that all students in grades kindergarten through twelve have access to a certified school counselor(s), which for the city school district of the City of New York and the city school district of the City of Buffalo shall include a licensed guidance counselor(s) pursuant to Part 80 of the Commissioner's regulations.

(i) For all grades kindergarten through twelve, district and building level comprehensive developmental school counseling/guidance programs shall prepare students to participate effectively in their current and future educational programs as age appropriate, and be designed to address multiple student competencies including career/college readiness standards, and academic and social/emotional development standards. The comprehensive developmental school counseling/guidance program ("program") shall include the following activities or services:

(a) In grades kindergarten through five, the program shall be designed by a certified school counselor in coordination with the teaching staff, and any appropriate pupil personnel service providers, for the purpose of preparing students to participate effectively in their current and future educational programs, to provide information related to college and careers, and to assist students who may exhibit challenges to academic success, including but not limited to attendance or behavioral concerns, and where appropriate make a referral to a properly licensed professional and/or certified pupil personnel service provider, as appropriate, for more targeted supports.

(b) For students in grades six through twelve, certified school counselors shall provide an annual individual progress review plan, which shall reflect each student's educational progress and career plans. For a student with disability, the plan shall be consistent with the student's individualized education program;

(c) school counseling/guidance core curriculum instruction for the purpose of addressing student competencies related to career/college readiness, academic skills and social/emotional development by a certified school counselor(s);

(d) other direct student services which may include, but need not be limited to, responsive services, crisis response, group counseling, individual counseling, appraisal, assessment and advisement, for the purpose of enabling students to benefit from the curriculum, assisting students to develop and

implement postsecondary education and career plans, assisting students who exhibit attendance, academic, behavioral or adjustment concerns and encouraging parental involvement. Provided that nothing herein shall prohibit certified or licensed school psychologists or certified or licensed school social workers pursuant to Part 80 of the Commissioner's regulations from providing other direct student services within their applicable scope of practice;

(e) indirect student services which may include but need not be limited to, referrals to appropriately licensed or certified individuals, consultation, collaboration, leadership, advocacy, and teaming.

(ii) Each school district shall develop district-wide and building-level comprehensive developmental school counseling/guidance plans which set forth the manner in which the district shall comply with the requirements of this subdivision. In the case of the City School District of the City of New York, the Department of Education shall submit separate plans for each community school district, for the High School Division and for the Special Education Division. Such district and building level plans shall be developed by or under the direction of certified school counselor(s) and be updated annually, available for review at the district offices and each school building, and made available on the district's website.

(a) Each plan shall be developed annually and shall include program objectives, activities, program development and maintenance planning, school counseling curriculum, professional development planning, evaluation methods based on data analysis of program results and closing the gap analysis reports to inform program improvement, and assessment of the resources necessary to support positive student outcomes.

(b) Each plan shall also include the preparation of a program outcomes report that includes an analysis of all systematic components of a comprehensive developmental school counseling/guidance program as defined by this subdivision. Such report shall be annually presented to the board of education, or in the case of the City School District of the City of New York, the Chancellor of the City School District of the City of New York, or to the extent provided by law, the board of education of the City School District of the City of New York.

(iii) Each school district shall establish a comprehensive developmental school counseling/guidance program advisory council to be comprised of representative stakeholders (such as parents, members of the board of education, school building and/or district leaders, community-based service providers, teachers, certified school counselors and other pupil personnel service providers in the district including school social workers and/or school psychologists). In the case of the City School District of the City of New York, the Department of Education shall establish a comprehensive developmental school counseling/guidance program advisory council for each community school district. The advisory council shall meet no less than twice a year for the purpose of reviewing the comprehensive developmental school counseling/guidance program plan and advising on the implementation of the school counseling/guidance program. The advisory council shall create and submit an annual report to the board of education, or in the case of the City School District of the City of New York, the Chancellor of the City School District of the City of New York, or to the extent provided by law, the board of education of the City School District of the City of New York.

(3) Nothing in this section shall be construed to authorize any individual to provide professional services where certification is required under Part 80 of the Commissioner's regulations or where licensure is required under Title VIII of the Education Law.

Social Emotional Learning (SEL)

Social and emotional and learning (SEL) has an important role to play in making schools safe and maintaining a caring school climate; facilitating students' holistic development; and enhancing student motivation, self-expectations and high achievement.

SEL begins at home and is facilitated through supportive school and classroom environments; school, family and community connections; skills acquired pre-K to 12 through instructions and mentoring; after school, extracurricular and service learning programs; school and community prevention and intervention services; and professional development for all staff.

This guidance document aims to give New York State school communities a rationale and the confidence to address child and adolescent *affective development* as well as *cognitive development*. By attending to the students' social-emotional brain development and creating conditions where school environments are calmer and safer, teachers can teach more effectively, students learn better, and parents and community can feel pride in a shared enterprise. As the authors of an Annenberg Research study of the middle grades in Chicago found: **"Successful schools realize strong academic outcomes by combining high behavioral and academic expectations with equally high levels of student and adult support (Lee, Smith, Perry, Smylie, 1999)."**

Social Emotional Learning

Access to School Counselor

The Island Park Union Free School District Comprehensive Developmental Guidance Plan has been designed so that all students in grades kindergarten through eight have access to a certified school counselor. The School Counselor conducts lessons in grades kindergarten through five (.4 FTE), promoting positive social and emotional growth. The School Counselor meets with students in grades six through eight (.6 FTE), to provide an annual individual progress review plan, which shall reflect each student's educational progress and career plans.

Social Emotional Learning

The Role of the Health Teacher

Health education provides a skills-focused instruction that follows a comprehensive, sequential, age appropriate K-8 Health education curriculum. The health curriculum is a standard based, skills driven, learner-centered curriculum. Health education instruction is focused on student achievement of learning standards, which includes Next Generation Learning Standards, New York State and National Health Education Standards. Health is taught with a skills driven approach, which enables students to learn, practice and apply health skills to relevant settings. Health education instruction consists of Social Emotional Learning Curriculum as well as Substance Abuse Prevention Curriculum, which will help students learn skills they will use to make healthy choices throughout their lifetime.

Research Based SEL Curriculum

Second Step Curriculum

Second Step is research-based, teacher-informed, and classroom-tested to promote the social-emotional development, safety, and well-being of children from Kindergarten through Grade 8. Second Step Social-Emotional Learning (SEL) gives students the tools to excel in and out of the classroom. The program assists students in making progress in emotion management, situational awareness, and academic achievement.

The Second Step K–5 curriculum provides a framework for promoting our students social, emotional, and academic success, by combining the Bullying Prevention Unit and Child Protection Unit. Each component’s lessons are age-appropriate.

In Middle School, Second Step helps teach powerful skills and competencies—like handling strong emotions, setting and meeting goals, making good decisions, and forging positive relationships—while building the safe, supported learning environment middle school students need to succeed.

Research Based SEL Curriculum

Harmony SEL

The District has adopted Harmony SEL to help students develop social and emotional skills. Harmony provides educators with the tools to foster and support student connections, collaborations, and learning. Some noteworthy attributes of the program are as follows:

- Harmony SEL integrates into the school setting for grades PreK through 8 and focuses on social and emotional learning to cultivate strong relationships between all students. The program is flexible and can be used in the classroom, in our wellness groups with students, and can be delivered through our guidance and health curriculums. The program includes everyday practices with thematic lessons, activities, storybooks, and games. Harmony has been recognized by the Collaborative for Academic, Social, and Emotional Learning as a CASEL SElect Program.

This program uses age-appropriate materials to facilitate lessons and activities that enhance students' communication and relationship-building skills. Harmony is aligned with CASEL, providing a framework for program objectives to create school environments that promote SEL through school culture, school policies, and through developing relationships with peers.

Research Based Substance Abuse Prevention

Too Good For Drugs

Too Good for Drugs is a K-12 prevention education program designed to mitigate the risk factors and enhance protective factors related to alcohol, tobacco, and other drug (ATOD) use. The lessons introduce and develop social and emotional skills for making healthy choices, building positive friendships, developing self-efficacy, communicating effectively, and resisting peer pressure and influence.

Too Good for Drugs teaches five essential social and emotional learning skills, which research has linked with healthy development and academic success: Setting Reachable Goals, Making Responsible Decisions, Bonding with Pro-Social Others, Identifying and Managing Emotions, and Communicating Effectively.

Too Good for Drugs empowers teens to meet the challenges of middle school life fostering confidence and building resistance to substance abuse. The curriculum addresses environmental and developmental risk factors related to alcohol, tobacco, and other drugs through the development of knowledge, skills, and attitudes teens need to make healthy decisions consistent with their healthy goals.

Guidance Advisory Board

The Island Park Union Free School District shall establish a comprehensive developmental guidance program advisory board to be comprised of representative stakeholders. Advisory Boards must meet at least twice each year. The role of the advisory board is to provide stakeholders with the opportunity to review, advise on and support implementation of the program. Annually, the Guidance Advisory Board will be comprised of at least one individual from the following stakeholders: parents, members of the board of education, school building and/or district leaders, community-based service providers, teachers, certified school counselors and other pupil personnel service providers in the district including school social workers and/or school psychologists).

Island Park Union Free School District Wellness Staff

Ms. Colleen Kunz- FXH School Psychologist

Dr. Courtney Duhning- LOMS School Psychologist

The U.S. Department of Labor, Bureau of Labor Statistics defines a school psychologist as follows: School psychologists work with students in early childhood and elementary and secondary schools. They collaborate with teachers, parents, and school personnel to create safe, healthy, and supportive learning environments for all students. School psychologists address student's learning and behavioral problems, suggest improvements to classroom management strategies or parenting techniques, and evaluate students suspected of having disabilities to help determine the best way to educate them.

They improve teaching, learning, and socialization strategies based on their understanding of the psychology of learning environments. They also may evaluate the effectiveness of academic programs, prevention programs, behavior management procedures, and other services provided in the school setting.

Mrs. Felicita Carranza- FXH School Social Worker

Mrs. Allison Janofsky- LOMS School Social Worker

The role of the School Social Worker includes: providing group/individual counseling, crisis intervention, student mediations, Committee on Special Education, providing resources and education to parents, and collaboration with faculty & outside agencies. It is a position that covers grades K-8, as well as the Committee on Preschool Special Education. The School Social Worker collaborates with school psychologists, guidance counselors, school nurses, teachers, parents, students, and administrators, and integrates the information from all of these sources to provide social, emotional, behavioral and adaptive functioning support to the child, the child's family and the school. The School Social Worker is involved in programs promoting bullying prevention as well as Internet safety.

Mrs. Andrea Porzelt- District-wide K-8 School Counselor

The role of the School Counselor is to develop, in students, a sense of positive self-worth, self-respect, self-confidence and an ability to achieve and succeed both socially and academically. The School Counselor helps students to establish goals by listening, informing and advocating for the student. A School Counselor is an advocate for the child and not a disciplinarian. School counselors roles and responsibilities include: Reviewing schedules, placement, and academic progress; assisting with class registration and scheduling; group and individual counseling; contact with parents, administrative personnel and consultants; assisting in Conflict-Mediation; interpretation of testing results to parents; coordination, scheduling and implementation of all New York State testing; High School visitation and articulation procedures with Long Beach High School; team meetings when deemed necessary; consultation with students regarding friendships, decisions and the influence of peers; mandatory counseling of Special Education students and counseling of non-CSE students; and College and Career readiness instruction.

Island Park Union Free School District Policy # 3107.9 Bullying Prevention and Intervention

The Board of Education is committed to providing an educational and working environment that promotes respect, dignity and equality. The Board recognizes that harassment, hazing and bullying is detrimental to students' learning and achievement, as well as, the work environment of district employees. Such behavior interferes with the mission of the district to maintain a civil and respectful school environment. It disrupts the operation of the schools, affecting not only the students who are its targets, as well as district employees, but also those individuals who participate and witness such acts.

To this end, the Board condemns and strictly prohibits all forms of harassment, hazing and bullying on school grounds (including but not limited to offices, classrooms, playgrounds, cafeterias, etc), school buses, and at all school-sponsored activities, programs and events, including those that take places at locations outside the district, as such behavior materially and substantially disrupts the educational process and working environment of the school, and may impinge on the rights of others. The Board recognizes that bullies can be both children and adults; and expects that all youngsters, employees, and other adults adhere to all district policies, including the Bullying Prevention and Intervention Policy.

Adoption: February 27, 2012

Overview of Document Design

This document is divided into sections that provide a comprehensive plan in the following areas:

- Career/College Planning
- Record Keeping
- Scheduling
- School Success
- Student Intervention
- Transitions
- Guidance Publications
- Professional Development

The following goals show the depth and breadth of formalized guidance activities and initiatives currently in practice in the school district. It is with these goals in mind that guidance activities are created and initiated.

- To increase **COMMUNICATION** with parents.
- To promote clearer understanding of **SCHOOL ENVIRONMENT**.
- To promote understanding of **EDUCATIONAL REQUIREMENTS**.
- To promote **SCHOOL SUCCESS SKILLS**.
- To promote **CAREER/EDUCATION** awareness and planning.
- To promote **SOCIAL/PERSONAL DEVELOPMENT**.
- To promote **COMMUNITY INVOLVEMENT**.
- To promote **COORDINATION OF SERVICES**.
- To promote **CONSULTATION SERVICES**.
- To promote **COUNSELING SERVICES**.

School Counseling is an essential aspect of the educational experience for all children. It is through the guidance program and counseling relationship that students are helped to interpret and integrate the world in which they live.

The K - 8 District Guidance Plan which follows sets forth a framework to enable each school in the Island Park School District to plan, organize, and implement a school counseling program designed to meet the needs of the entire student body.

Career / College Planning

The K-8 counseling program has as part of its charge the goal of preparing students for success in high school. This process involves making parents and students aware of academic requirements as well as providing appropriate and rewarding school-to-work experiences to students. The middle school counselor provides transitional programming at every stage, with the ultimate goal being the student making the successful adjustment from elementary school to middle school to high school to college, the military or post-secondary employment.

The counselor develops appropriate schedules for students in accordance with the state and local learning standards as implemented by the New York State Department of Education. Developing career awareness utilizing Naviance and other means begins at the elementary school level. Career fairs; contribute to a comprehensive school-to-career program.

Record Keeping

The School Counselor actively reviews students' schedules, credits, and transcripts to maintain the integrity of student records. The school counselor, along with classroom teachers, maintains records for students receiving academic intervention services. Some of these forms include but are not limited to: faculty angels' weekly progress reports, weekly progress monitoring, monthly progress monitoring and quarterly progress monitoring.

Record keeping, the disclosure of student records and information is subject to the Family Education Rights and Privacy Act of 1974 (FERPA). The School Counselor adheres to the provisions of this law, as well as, any related state mandates.

Record Review

5-8		School Year		Ongoing
To ensure accurate grades/credits are on transcript.	To maintain the integrity of student records and to ensure that our students are accurately placed in their classes.		Verifying current student grades from previous years; end-of- year verification of grade calculation and accuracy of attendance, final exams, local assessments, state assessments, and regional assessments.	
Information sent to high schools and school districts (if students move) will accurately reflect student achievement.	Information in PowerSchool.	Counselor, secretaries, data analyst.	Computer, report cards, transcripts.	

Maintain Cumulative Academic Records

5-8	Year-round		Ongoing	
The school is required to keep a cumulative record of individual students' academic progress, and testing information.	To accurately maintain all relevant student information (progress reports, report cards, state assessments and local assessments) in a confidential, central student file.		Counselor maintains scheduling, standardized testing, students' course forms (HS), interventions attempted, referrals, support given and other information on individual student performance for students in grades 5-8. This is accomplished by meeting individually with all 5 th grade classroom teachers, and meeting with the 6 th , 7 th and 8 th grade teams. In these meetings, we discuss prior testing and review each student's schedule to ensure it is the most appropriate for every child's academic needs.	
An accurate, comprehensive, and confidential student file will be maintained for each student.	Each student will have a complete file containing academic information.	Counselor, teachers, administrators, and secretaries.	File folder for each student.	

Documentation and Information Maintenance

5-8	Year-round		Ongoing	
Almost every aspect of counselor responsibilities requires documentation and record maintenance.	To accurately document pertinent information to ensure its accessibility when needed.		Counselor maintains information about students from many different sources (report cards, progress reports, and local, state and regional assessments). Counselor is also frequently asked to compile information regarding students, course history, interventions, etc. which must also be maintained and compiled. Student transcripts are reviewed and progress toward graduation is tracked.	
Information on students will be accurately compiled and maintained for future reference, comparison, and/or evaluation purposes.	Records are kept and appropriate information collected.	Counselor, secretaries, data analyst.	Course history, report cards, progress reports, and schedules.

Scheduling

The counselor actively collaborates with students in the scheduling process. Course selections are carefully designed for individual students based on their needs and future goals. It is recognized that schedule adjustments will be necessary, with teacher, administrator, and parent input to ensure proper class configuration. Students' schedules may be changed to enhance the quality of the education and overall academic success of the student.

It is critical that information from the elementary school be shared with the Middle School counselors and administrators, and that student information from the Middle School be shared with the High School counselors and administrators. Academic records will follow the student in the K-12 process. The students' cumulative folder will maintain all relevant student information and be kept confidential. Student report cards and State Assessments will be reviewed for accuracy annually and filed in the cumulative folder.

Course Selection

8 (rising 9 th grade)	December – June		Ongoing

Students require assistance in selecting courses appropriate for their educational and career plans and graduation requirements.	To individually help students design a realistic and challenging class schedule to meet requirements and promote post-secondary requests.		Counselor distributes and discusses course materials in an assembly program. Students receive a course offering book. Students are expected to review their proposed schedule with parents. Counselor meets with students and parents individually for class selection. Student course requests are input in the computer by the High School. Counselor follows-up with students/ parents regarding problems with their schedules.	
Students will have a schedule that supports his or her vocational and educational plans, while assuring district and state compliance.	Students will meet their academic goals. Accelerated Courses

7 th to 8 th grade	Year round		Ongoing

Students who have demonstrated excellence in the seventh grade mathematics, science and art course are selected by the seventh grade respective teacher and administration to recommend them for participation in the course (s).	These courses are rigorous, high school level courses that will allow our students to earn high school credit while in the eighth grade. A Regents examination will be given in June for the Integrated Algebra and Living Environment courses.		Throughout the seventh grade school year, the seventh grade math, science and art teacher begin to develop a sense of how the students are handling and maintaining the work load. As the year progresses, the three teachers meet with the eighth grade respective teachers, the principal and the school counselor to discuss who they believe will succeed at the advanced level, based on current performance. The three courses available for eighth grade students to take are: Integrated Algebra, Living Environment and Studio in Art. The teachers hold an informational session for parents in order to explain the requirements for each course, as all three have early morning requirements. All students must have good attendance to early morning sessions and maintain an average of 85% throughout the year in order to remain in the high school credit bearing course (s).	
Students will earn one high school credit per accelerated course that has been completed with a passing final grade. Students will be taught and challenged at an advanced level, beginning the start of their high school career.	Students will complete the year with a passing final grade as well as a passing grade on the NYS Regents Exam (s) for Integrated Algebra and Living Environment.	Teachers, counselor, and principal.	Report cards, progress reports, NWEA testing, State Assessments, and Art portfolio projects/classwork.	<ul style="list-style-type: none"> Meet as a collaborative team to discuss the students who qualify. Meet with the students and parents to discuss the importance of accelerated courses and the requirements of each course individually.

Schedule Adjustment

5-8	Year Round		On-going	
During the school year students require schedule adjustments and classes need to be balanced to ensure equity of opportunity.	To review all change requests and to assess their validity consistent with state and local graduation requirements, and to create course enrollments considerate of class size, student ability and student interest.	Students must discuss possible schedule changes with their counselor. After discussing the change, including the student's purpose for wanting the change, the counselor will determine whether the change is in the student's best interest. Teacher, parent, and administrator input will be ascertained. Once the counselor validates the possibility of the change, the counselor will communicate with the parent. Once the change is approved, it is then made via PowerSchool. A new schedule is printed and given to students.		
Relevant changes will be made which do not limit or diminish student opportunity. Courses will be balanced considerate of size and student ability.	Schedule changes and balanced classes will enhance the quality of the education that student obtains and assist in the overall academic success of the student.	Counselors, teachers, principal, and data analyst.	Up-to-date master schedule and assessment scores.

Student Achievement

The ultimate goal of every educator and counselor is to help students achieve mastery of the curriculum and graduate from middle school well prepared to meet the rigors of high school. Improving communication between home and school enhances student success in school. This is provided with regularity throughout the year in a myriad of ways.

Aiding student achievement also means providing additional summer support to those students who may be doing all they can to succeed, yet are still encountering difficulty. Not every student learns in the same way, therefore a variety of supports are needed to help and encourage every student to acquire school success.

Island Park UFSD Student of the Month

K-8	September- June	Ongoing	Ongoing

In the Island Park UFSD, we recognize good citizenship as an important quality in our students and want to recognize those who exhibit the characteristics of good citizens. Good citizens work together with their classmates and teachers with a cooperative attitude. They complete their work diligently and exhibit good behavior. Many of them display leadership qualities, serving as role models for their peers.	Students are chosen by faculty of Francis X. Hegarty Elementary School or Lincoln Orens Middle School for exceptional effort and for possessing positive character qualities. Decisions were based upon the following district-wide criteria: cooperation, community involvement, outstanding attitude, improved achievement, leadership, good attendance, outstanding grades, and improved behavior.	Student of the Month recipients will be invited with their family and friends to celebrate their own personal and other good citizens' success at a ceremony held during the monthly Board of Education Meetings. Students and their families are welcome to join for light refreshments and a photo opportunity of the recipients with their awards.		
The outcome of this program is our students' continued efforts, success in his/her school and how our students are demonstrating superior effort to be successful and responsible from grades Kindergarten through Eight.	This program is evaluated through the ongoing success of our student population.	Administration and teachers.	Nomination forms, invitations, awards, medals and water bottles.	In order to properly plan this every month, all teachers must fill out the nomination form. Once recipients are chosen by grade level teams, the building principals meet with the teams to discuss the winners. As winners are finalized, students and families are notified.

Student Intervention

Optimally, students would always come to school ready to learn. However, there are several reasons that this may not be the case. Examples are problems at home, conflicts with peers or teachers and learning disabilities. When these issues arise, the counselor has a variety of ways to deal with them. These can include interventions within the school or referral to outside agencies. Interventions are made when students have attendance, behavioral, home or academic problems.

In-school interventions may consist of crisis counseling, individual counseling, and referral to the RTI or referral to the Committee on Special Education. Students can also be referred to a staff member to help resolve disputes. In some cases when interventions have been unsuccessful or when students or parents are unable, or unwilling to come to the school to meet, a home visit may be made.

Often issues that students and families deal with are beyond the realm of what the school is able to offer. When this arises, referrals are made to community agencies. This could involve outside counseling or intervention services. These interventions are all focused on putting the student and/or the family in a better position to be successful.

Response to Intervention (RTI)

K-8	School Year		45 Minutes per student

Students referred by counselor, faculty or parents who are experiencing academic or behavioral difficulties.	To improve the academic performance of students who are at risk.	A team of school personnel meet weekly, monthly (depending on building needs) to discuss and develop a plan to assist referred students. Possible interventions are reviewed, strategies discussed, and a plan for success is developed.		
The needs of at-risk students will be addressed and a teacher, social worker, psychologist or counselor will follow up.	Student success is reviewed at scheduled follow-up meetings.	Included but not limited to: administrators, school counselor, school social worker, school psychologist, nurse, teacher and parents.	Teacher referral forms, report cards, permanent record folders, attendance records, behavior.	<ul style="list-style-type: none"> Review student files for background. Meet with teams to discuss students of concern. Follow through on team recommendations. Parent contact.

Response to Intervention (RTI) Referral Process

K-8	School Year		
-----	-------------	--	--

During the school year, faculty and staff may need additional consultation support to assist students in achieving success.	Students in need of finding academic focus, social, and emotional support are referred.	The concerned teacher fills out the appropriate referral sheet which will include evidence of strategies already implemented and attempted. This may include calling home, conferencing with students and/or parents, and many other methods.		
Additional interventions will be identified and implemented to help the student find success in the school setting.	Monitor student improvement; to be reviewed at scheduled follow-up meetings. Child Protective Services Referrals**

K-8	When necessary		
-----	----------------	--	--

Student safety.	To report incidents as mandated. Support students when their safety may be compromised.	When students come to faculty members describing an incident that may need to be reported to the Department of Social Services or Child Protective Services, a determination is made if the incident is reportable. Sometimes this is determined through consulting with colleagues or by calling CPS. The student is seen by the nurse for documentation. If the incident must be reported, the mandated reporter will call CPS after filing the report/referral. When CPS representatives come to school, the counselor will stay with the student during questioning. Counselor will follow up taking any necessary and appropriate steps needed. Counselor will also inform the principal.		
Students are safe and supported, allowing them to refocus on their education. Agency investigates allegations.	Students are safe, and a relationship with family improves. Committee on Special Education Referrals

K-8	School Year		
-----	-------------	--	--

Additional information is needed when interventions of the RTI do not help a student achieve academic standards, and it is believed that the student may have a learning or emotional disability. A referral is made for testing with the appropriate school personnel.	To determine if a child has a learning or emotional disability that is impinging upon their academic success.	School psychologist assists in the preparation of the referral form. The Coordinator of Special Education and school psychologist discuss its implications with parents, inform counselor, child’s team teachers, and school principal, and coordinate testing with the school personnel.		
Student in need of individual education plans will be appropriately identified by the district’s CSE. Student is tested, a CSE meeting is held and the committee recommends whether classification is appropriate or not.	CSE Annual Reviews are held for classified students.	School psychologist prepares referral. Coordinator of Special Education assigns special education teachers and school psychologist to conduct testing and CSE members review. Transitions

Entering a new school year can be challenging for students and their parents. As a way of assisting students new to the district and those who are transitioning from one school district to another, the school counselor and social worker have developed a series of orientation programs.

Careful attention is given to the placement of students and, hence, focuses on early identification of students who may be considered to be “at risk” in order that appropriate early intervention may be made.

Information is disseminated through a series of evening parent programs, assembly programs, lunch groups, and classroom presentations for students. Parent meetings are planned to inform them of school expectations and procedures, so that they might play an active role in helping their children attain optimal academic success.

Monthly Themes

Clearly, every month, there are important opportunities for anticipating predictable problems and planning prevention and early intervention to minimize them. By pursuing such opportunities, schools enhance teachers' ability to do their job well. Therefore, as such basic concerns arise throughout the year, school staff need to be proactive and timely in promoting a school wide focus to address the concerns and minimize their impact on students, their families, and the staff at a school.

Student support personnel, in particular, can play a major role in formulating and providing support for implementing a "theme of the month" at schools throughout the district. Given the limited time a school has for personnel development, focusing on a different theme each month engages all stakeholders as a community of learners.
