Our Mission Statement

The mission of the Queens Gateway to Health Sciences Secondary School is to prepare all students to perform proficiently, exceed academic standards, and find productive pathways to knowledge as they learn to live constructively together. Queens Gateway, through the collaboration of school, home, and community strives to develop high expectations for all students in an educational environment that is safe and nurturing. We are committed to the use of appropriate instructional expertise, guidance services, academics intervention services, and the use of technology to support teaching and learning. We will continue to provide a college preparatory program in the health sciences while respecting and understanding the needs and diversity of our school community. We will achieve this through an enduring community partnership that celebrates the success for all students, supports teachers' professional learning, innovation and creativity in teaching, strong relationships between parents, students and staff, and a high standard of performance for all students.

We are an AP Capstone School.
