Calling all Parents!!

The 2022-23 Yearbook needs your help. This is a very time consuming project for a small group of people to handle so this year we are asking for help from parents. This is a great way to volunteer at home on your own time and bring your creativity to life! We will be asking for a volunteer(s) to take a section (or two!!) and put it together. Someone will be the Chairperson and work alongside some of our amazing teachers to finalize the Yearbook and help along the way.

Please see below sections that need a volunteer and then detach the bottom portion and send into the office with your preference. Once we have all sections accounted for we will hold a meeting to get this started. Thank you all in advance for making this publication happen for our kids!
